REPORTING REQUIREMENTS

THE DEPARTMENT OF HUMAN RESOURCES IS SUPPLYING REPORTS AND STATISTICS ON WELFARE REFORM TO FULFILL THE REQUIREMENTS OF SENATE BILL 104.

FROM SENATE BILL 104:

“[The department shall] publish an annual report and such interim reports as may be necessary. The annual report and such interim reports shall be provided to the Governor and members of the General Assembly and contain the following:

- A. The total TANF caseload count;
- B. Quarterly and annual TANF reports, in full, prepared for submission to the federal government;
- C. The percentage of the TANF caseload and the number of individuals given a hardship exemption from the lifetime limit on cash assistance and a categorization for such exemption;
- D. The number of individuals who received transportation assistance and the cost of such assistance;
- E. The number of individuals who received diversionary assistance in order to prevent their requiring TANF assistance and the categories of such diversionary assistance, and job acceptance and retention statistics;
- F. The number of individuals denied assistance due to a serious violent felony conviction;
- G. The number of mothers under 19 years of age who received assistance and their percentage of the total TANF caseload;
- H. Number of children receiving subsidized child care and the total and average per recipient cost per child;
- I. Data on teen pregnancy prevention;
- J. The number of families sanctioned;
- K. The number of legal immigrants receiving TANF benefits by category of immigration status;
- L. The number of families no longer eligible because of time limits;
- M. Follow-up information on job retention and earnings; and
- N. An evaluation of the effect of Code Section 49-4-186 on the number of births to TANF recipient families.

The information required under this paragraph shall be provided on a county-by-county basis where feasible.

WELFARE REFORM IN GEORGIA: 1997 - 2006

Georgia has long been a recognized leader in welfare reform. In the early 1990's when Georgia's welfare rolls were approaching 150,000, the Governor and the state legislature took the necessary steps to connect the receipt of welfare benefits, Aid to Families with Dependent Children (AFDC), to personal responsibility and work.

At the same time, the Georgia Department of Human Resources (GDHR), Division of Family and Children Services (DFCS) county offices were undergoing dramatic changes. County DFCS offices became employment centers and local partnerships were formed with businesses, non-profit agencies, and the Georgia Department of Labor (GDOL) to promote work and self-sufficiency among welfare recipients.

In past years, the most important aspect of a caseworker's job was issuing welfare benefits. With the 1996 introduction of WorkFirst! the emphasis shifted to helping recipients find work. During SFY 2005 and 2006, Georgia has focused on training the case managers (formerly called case workers) to assist TANF recipients in maintaining employment as well as seeking career advancement. Customers are not just expected to get a job but to keep the job, seek advancement and earn enough money to leave the welfare rolls. As a result, our TANF caseloads are greatly reduced.

The Personal Responsibility and Work Opportunity Reconciliation Act

In August 1996, the Personal Responsibility and Work Opportunity Reconciliation Act (PRWORA) was enacted. PRWORA eliminated the Aid to Families with Dependent Children (AFDC) cash entitlement program, and replaced it with the Temporary Assistance for Needy Families (TANF) block grant. PRWORA effectively ended welfare entitlement, replacing the AFDC program with the time-limited benefits of Temporary Assistance for Needy Families (TANF). The purposes of this legislation were to:

- Provide assistance to needy families so that children could be cared for in their own homes;
- Reduce welfare dependency by promoting job preparation, work and marriage;
- Prevent teen pregnancies; and
- Encourage the formation and maintenance of two-parent families.

PRWORA established mandatory work and job training participation rates for recipients and enacted time limits for the receipt of TANF benefits. Moreover, PRWORA afforded states greater flexibility in the design and implementation of the TANF program and provided each state a block grant to fund its TANF program. State Maintenance of Effort (MOE) spending levels were mandated so that states would maintain levels of spending consistent with previous spending for AFDC.

In the fall of 1996, Georgia submitted a state plan for administering the TANF program. Following a 45-day federal review period and a series of public hearings, the plan was accepted by the U.S. Department of Health and Human Services (HHS) and Georgia was approved to receive its share of the TANF block grant. The first TANF checks were issued on January 1, 1997.

Senate Bill 104

The enabling legislation for the TANF program in Georgia was Senate Bill 104, now known as Act 389. The major provisions of the bill included:

- Most recipients are limited to 48 months of TANF assistance.
- All adult TANF recipients and all eligible parents are mandated to participate in approved work activities.
- All adult TANF recipients were required to sign a personal responsibility plan that emphasized the fact that they must take personal responsibility to better their lives.

Some of the required actions included:

- ensuring that minor children attend school
 - attending school conferences
 - attending family planning counseling
 - participating in substance abuse treatment, if needed
 - having children immunized
 - obtaining prenatal care.
- Teen parents are required to continue to live with a parent or responsible relative, and must remain in school to obtain their GED or High School diploma.
 - Family cap measures were strengthened, so that TANF cash assistance was not increased for recipients who had another child after receiving TANF for ten months. Families who did not meet work or personal responsibility requirements could be sanctioned, with a reduction or permanent termination of benefits.

New Developments

In October 2004, Georgia initiated a new service delivery strategy for TANF called TANF = WORK NOW. This strategy focuses on 3 elements: (1) Education-TANF Clients are educated at the point of application on all the goals and requirements of the TANF program. (2) Engagement-TANF clients with a work requirement are engaged in work activities within 7 days of the approval of their application. (3) Monitoring-TANF clients are monitored consistently and frequently to ensure adherence to program requirements. This concept yielded a significant decrease in the number of Total TANF

Cases, in particular the number of Adult Cases on TANF. In SFY06, the monthly average of adult cases was 10,432.

In April 2006, Georgia took TANF = Work Now a step further by focusing on values and beliefs that under gird our work and assist in strengthening Georgia's families. New policies were implemented and case managers were trained on the principles of case management. The values and beliefs that we espouse are:

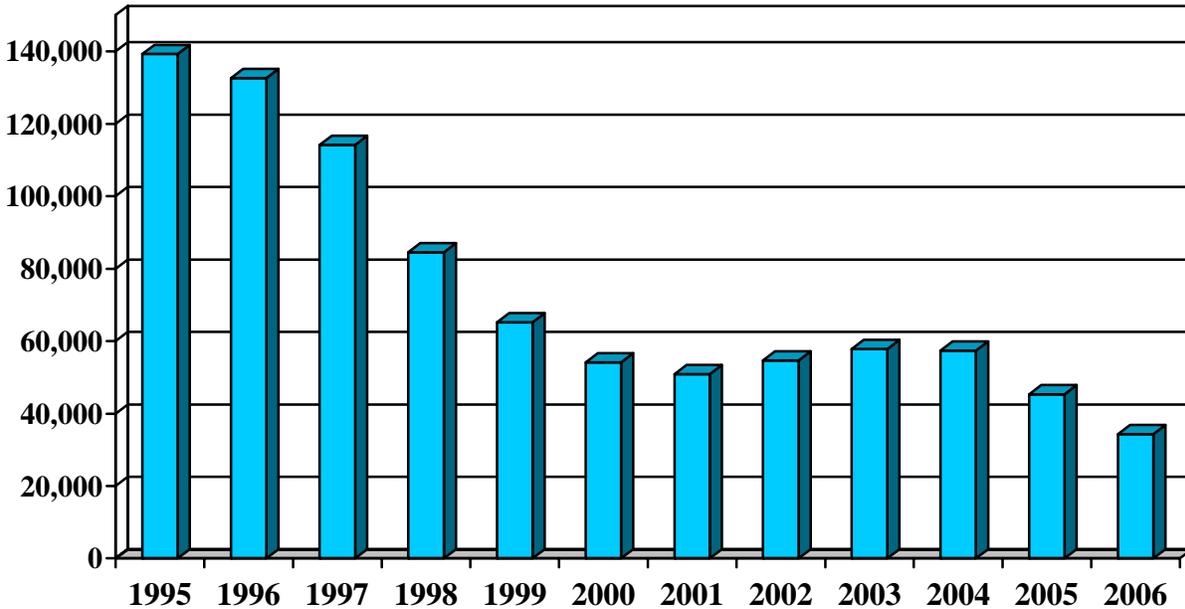

- Welfare is not good enough for any family.
- Government cannot and should not take the place of family.
- Children are better off when responsible caretakers are able to provide for their families.
- There is dignity in work, whether with the hand or the head.
- Georgia urges responsible adult behavior and economic self-sufficiency to end dependency on government assistance.
- With proper preparation, support and supervision, we can help our customers create a more secure employment future for themselves.

Collaborative Efforts

To achieve Georgia's commitment to assisting TANF recipients to fulfill the requirements of Act 389 and to attain self-sufficiency, it was critical to collaborate with other public service agencies, and with entities in the education and business world. Partnerships were formed with the Georgia Department of Labor (GDOL) and with the Georgia Department of Technical and Adult Education (GDTAE) to develop a job-ready workforce. Each agency committed to providing specific services to TANF recipients, with DHR providing case management and support services. GDTAE is the primary source for job training, and GDOL focuses on job development and placement. The services provided through these partnerships have contributed greatly to the decline in the number of families receiving TANF since the implementation of welfare reform. TANF customers utilized the job training, job development and job placement resources from our partners to gain or refresh their skills; thus, becoming more marketable, which enabled them to find better jobs and leave the TANF program.

TANF CASELOADS

From SFY 1995 to 2006

In SFY 1997 Georgia had 114,154 cases on its TANF rolls. We are happy to report that the current total number of cases on TANF in Georgia for SFY 2006 is just over 34,000. We have reduced our rolls by 70% in nine years. As of June 2006, Georgia had 29,237 total TANF cases.

Work Supports

In addition to partnerships with other agencies, the availability of work supports was critical to the success of TANF self-sufficiency efforts. In order to secure and maintain employment, many families required assistance with transportation, childcare, and medical expenses, as well as assistance in obtaining child support. During SFY 2006, Georgia implemented new policies, which provided its TANF recipients with two new work support services. They are Employment Intervention Services (EIS) and Transitional Support Services (TSS).

EIS is available to an applicant if s/he:

- has a full time job but is temporarily on unpaid leave due to a temporary illness and is scheduled to return to work within 4 months, and the AU meets the gross income ceiling (GIC) test,

- is employed at the time of application and is potentially eligible for less than the maximum amount of cash assistance for the AU size, and so declines TANF cash assistance to preserve months of TANF eligibility,
- obtains employment during Applicant Job Search that reduces his/her potential benefits and s/he decides to withdraw his/her application to stop the TANF clock.

Note: If an applicant is determined ineligible to receive TANF benefits on-going, s/he will not be considered eligible to receive EIS.

EIS is non-recurrent, short-term assistance that is equivalent to four times the maximum grant amount for the AU size.

The availability of the EIS must be discussed with all clients at application. EIS is available only once in a client's lifetime.

TSS is available to

- an applicant whose employment obtained during applicant job search causes the AU to become ineligible for cash assistance,
- an applicant who voluntarily withdraws his/her TANF application because employment obtained during applicant job search has significantly reduced his/her potential TANF grant amount and the client wishes to stop the TANF clock and preserve months of potential TANF eligibility,
- a recipient whose employment causes the AU to become ineligible for cash assistance,
- a recipient whose on-going TANF case is closed due to loss of earned income disregards, or
- a recipient who voluntarily closes the TANF case because employment has significantly reduced the TANF grant amount and the client wishes to stop the TANF clock and preserve months of potential TANF eligibility.

TSS is available for a period of six months beginning with the first month of ineligibility for cash benefits or the month in which the TANF case closes due to employment.

TSS payments for Transportation and Incidental expenses should be made directly to the provider of a service.

If an applicant's job begins in the month in which the TANF application is denied, receipt of the TSS will not count toward the applicant's TANF lifetime limit.

Transportation

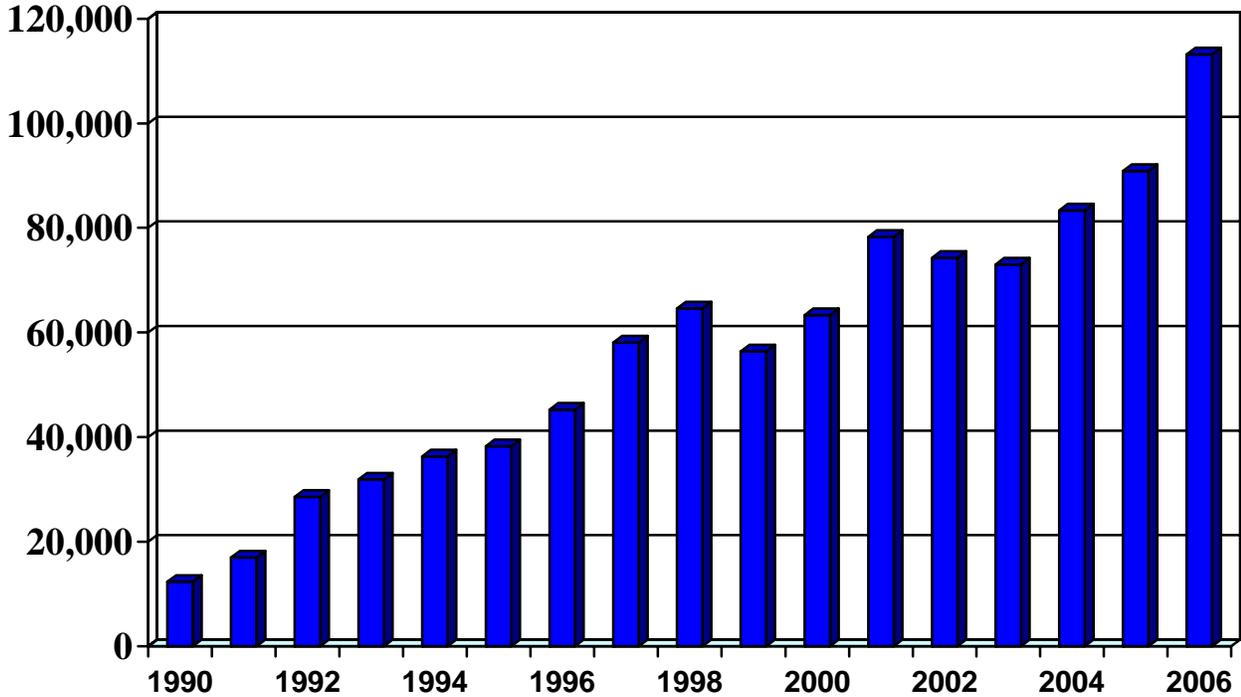

Transportation expenditures greatly increased with the implementation of TANF and subsequently decreased as the number of TANF cases declined. GDHR/DFCS offers two transportation work supports options: direct payment to applicants and clients and transportation services through GDHR's Consolidated Transportation System. Although funds were available for transportation expenses, transportation services were not readily available, particularly in rural areas. In SFY 2000, GDHR/DFCS collaborated with the Georgia Office of Facilities and Support Services to expand the Consolidated Transportation System. TANF funds invested in this initiative have increased from \$345,000 in SFY 00 to \$10,313,112 in SFY 2006. TANF funds paid directly to applicants and clients totaled \$2,240,217 in SFY 2006.

Childcare

Affordable, quality childcare was also essential to the success of individuals going to work. The number of payments for children in subsidized childcare increased from approximately 58,099 per month in SFY 1997 to 113,189 per month in SFY 2006. In addition, expenditures in the program increased from \$115,999,169 in SFY 97 to \$218,743,248 in SFY 2006. Childcare continues to be one of the largest programs managed by caseworkers at the county level.

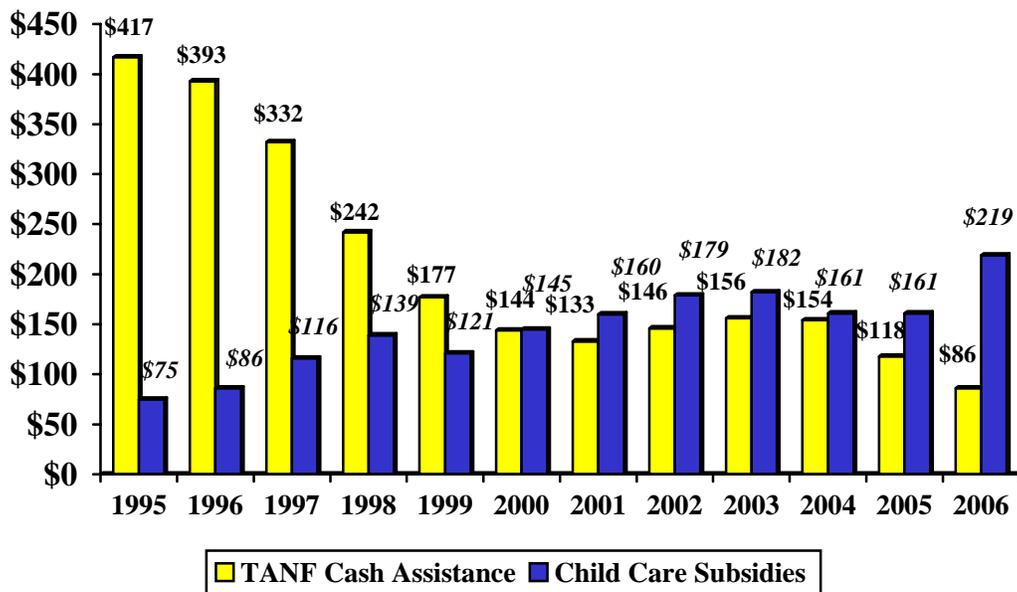

Payments for Children in CHILDCARE

Fiscal Year 1990 to 2006

Comparison of Cash Assistance and Child Care Expenditures

From SFY 1995 to 2006 in Millions of Dollars

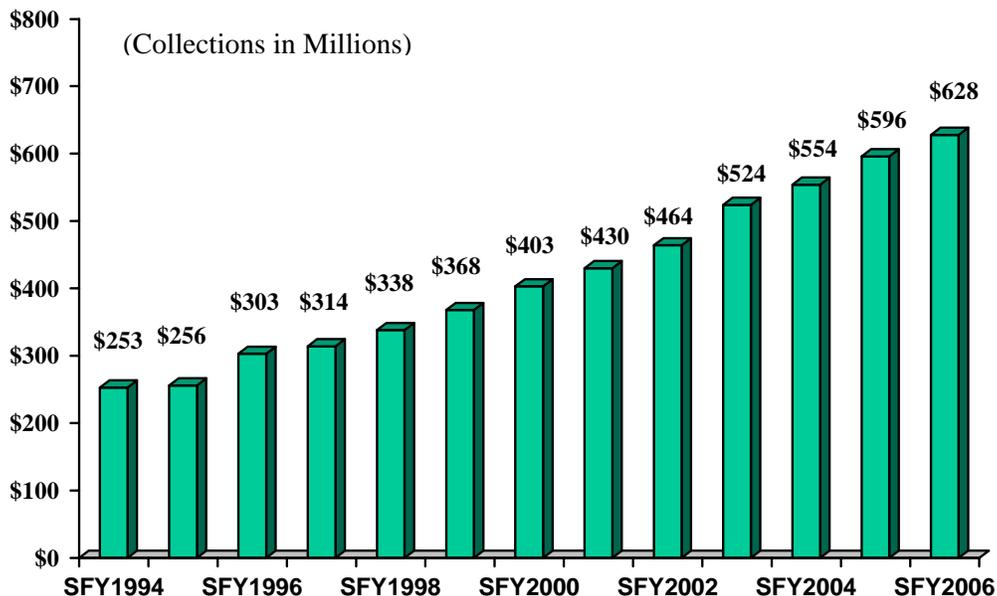

Medicaid

Many TANF recipients beginning first-time employment were either unable to afford the medical insurance made available to them by their employers or found that few employers offered the option of medical insurance. The combination of Low Income Medicaid (LIM), Transitional Medical Assistance (TMA), and Right from the Start Medicaid (RSM) or PeachCare for Kids (PCK) provided and continues to provide this necessary coverage. The 12-month continuation of Medicaid in the form of Transitional Medical Assistance (TMA) provides necessary medical coverage for families who become ineligible for LIM as a result of new or increased earned income. Once TMA ends, the children of most families are eligible for additional coverage through RSM or PCK. Currently 587,810 Georgia families receive Medicaid through LIM, TMA, and RSM. This was in July of 2006.

Child Support

Insufficient child support prevented many single parents from attaining economic self-sufficiency. Increased collections by the Child Support Enforcement (CSE) program are helping families receive more of the child support owed to them.

Increasing Success in Collecting Child Support

Additionally, Georgia's Fatherhood Initiative has been expanded throughout the state. The Department of Technical and Adult Education (DTAE) has taken the lead in this

project. Job training is provided to assist fathers in securing employment that will enable them to pay child support and provide for their children. This initiative teaches young men how to be more responsible parents.

Other Work Supports

The future of welfare reform in Georgia will include a continuing focus on moving families to economic independence through stable employment. Most recipients remaining on TANF eight years following Welfare Reform fall into two main categories. The first is comprised of children who receive TANF in “child-only” cases in which a non-parent relative is caring for the children and is not included in the TANF grant. These families are not subject to time limits or work requirements. The second category consists of recipients with multiple barriers to self-sufficiency. Some of these barriers include substance abuse, illiteracy, disabilities, and domestic violence issues. The following initiatives continue to assist these recipients in attaining self-sufficiency:

- The GDHR Division of Mental Health, Developmental Disabilities and Addictive Diseases (GMHDDAD) provide substance abuse counseling and treatment through outpatient and residential facilities. Treatment for clients who have been diagnosed with mental impairment and mental retardation is also provided.
- The GDOL Vocational Rehabilitation (VR) Program provides disability assessments for recipients who allege a disability that impedes their ability to work. VR also places recipients in appropriate VR programs based on assessment outcomes and makes recommendations that assist DFCS in planning services to help recipients overcome barriers to employment.
- GDTAE provides expanded adult literacy services.
- Domestic violence issues have been emphasized through various measures. Contracts have been signed with local shelters to provide assessments for individuals claiming domestic violence as a barrier to becoming self-sufficient. Waivers from certain program requirements may be granted based on assessment outcomes. Training is provided for DFCS staff. Brochures and posters are distributed throughout local areas to increase awareness of available services.

Lifetime Limits

In Georgia, the receipt of TANF is limited to 48 months in a lifetime for an assistance unit. Beginning in January 1997, each month in which an assistance unit receives TANF, counts toward the 48-month lifetime limit. The Federal lifetime limit is 60 months. An assistance unit that is subject to the lifetime limit may have the limit waived if it is determined that the assistance unit meets certain hardship criteria.

Hardship Waivers

Some families will require additional time to prepare for work and some may never be fully self-sufficient. For these families, Georgia has established a hardship waiver policy that is approved on a case-by-case basis. The waiver of the lifetime limit allows for temporary extensions of TANF to families experiencing additional barriers.

The hardship waiver policy was revised in April 2006. There are now three hardship criteria for case managers to use to evaluate each family's situation.

1. A family member is a victim of domestic violence or has been threatened.
2. The family has an open child protective services case.
3. The disability of the grantee relative, other eligible adult or a household member is a barrier to employment for the grantee relative or other eligible adults.

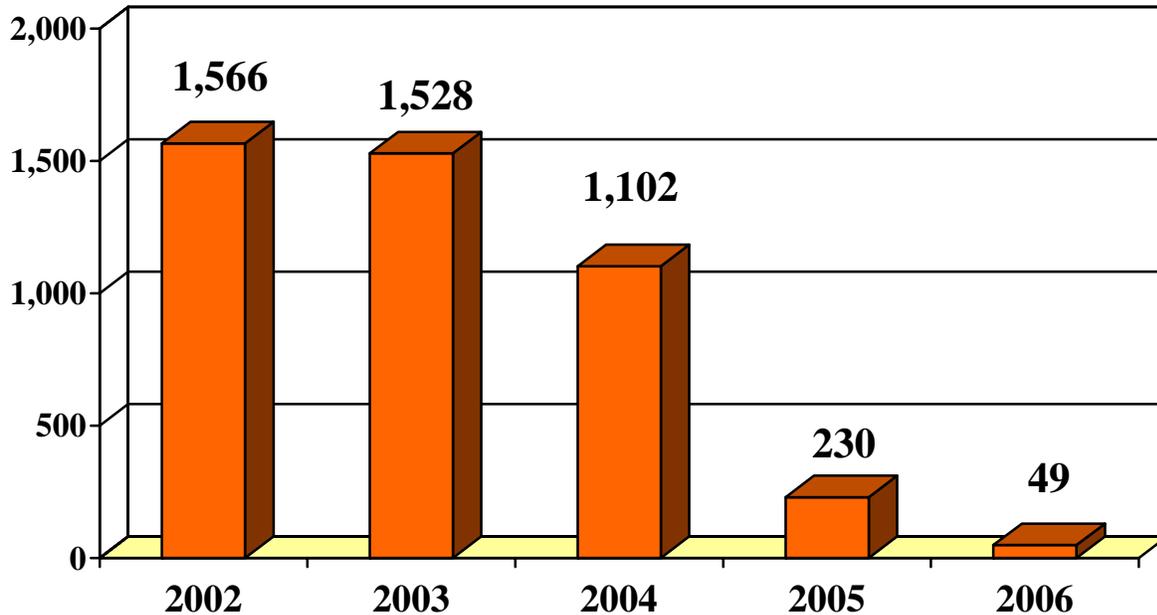

Other forms of work supports, including Food Stamps, Medicaid, shelter and utility assistance, are available to families that do not meet any of the hardship criteria.

Georgia's TANF caseload totaled 50,996 cases in December 2000 when the first 1,446 families reached the 48-month time limit. Of those families, 1,094 met a hardship criterion and were eligible for extended TANF benefits through hardship waivers. Since December 2000, the number of families reaching the 48-month time limit has decreased.

In December 2001 yet another milestone in the TANF program was reached when 311 Georgia TANF recipients reached the federally imposed 60-month TANF lifetime limit. Of these 311 recipients, 280 continued to be eligible under a hardship extension. As with the 48-month time limit, the number of families reaching the 60-month federal lifetime limit has decreased. In June 2004, there were 1,102 families receiving a hardship extension, but in June 2005 there were only 230 families receiving extensions. Currently in June 2006, Georgia has only 49 families who have been granted a hardship waiver.

TANF Hardship Extensions

June of the Year from 2002 to 2006

Pregnancy Prevention

In addition to the work requirements contained in PRWORA, states were required to address the problem of rising teen pregnancy. In collaboration with DFCS, the Georgia Division of Public Health (GDPH), developed teen pregnancy prevention measures and instituted comprehensive Adolescent Health Centers located in Georgia's eighteen health districts. The goals of this initiative are to promote: health and wellness, encourage abstinence and contraception and to reduce risk-taking behavior among adolescents.

There are 31 Teen Centers statewide that participate in this initiative. These centers provide family planning services, treatment of sexually transmitted diseases, and youth development opportunities to build on the strengths of youth that are at high risk of teen pregnancy. In SFY 2006, these centers provided health, education, preventive and support services to 40,361 youth and their families. The ages of the youth served were: 10-14 (17,605), 15- 17 (15,064), and 18-19 (7,692). The services provided were:

- 36, 162 Comprehensive health services
- 18,091 Individual health screenings
- 1,136 Well Child check-ups and
- 8,957 Health and Community referrals

The youth-development activities promote academic achievement, healthy self-esteem, and life skills training. They target teens parents, and partner with other community organizations who serve on teen center advisory councils, serve as volunteers, and provide training and quality assurance to programs to ensure a best practice approach.

DHR Youth Initiative

In November 2005 the Department launched the Youth Initiative in order to expand out-of-school services available to school age youth. They recognized that youth development practices delivered in after school and summer program settings can play a critical role in motivating youth to achieve success not only in schools, but also in their personal lives. These out of school services also contribute to our efforts in reducing teen pregnancy.

In SFY '06 over \$13 million dollars in TANF and state funding were used to expand summer and afterschool programs for children ages 6-19. Funds were distributed to community-based organizations and public schools. The awards ranged from \$28,000 to \$800,000 to over \$6 million for the GA Alliance of Boys and Girls Clubs, Inc. statewide. Through a pilot program with the Department's Division of Mental Health, 5,300 youth people with severe emotional difficulty and behavior disorders took part in summer recreation programs. \$3.5 million was provided for these programs. In total, the DHR Youth Initiative funds have impacted over 200 program sites and over 19,000 youth have benefited from these programs across the state.

As TANF cases in Georgia continue to decline the Department of Human Resources is able to devote additional resources to support working families, while leveraging other funds using a \$1 to \$1 match to DHR funding. This funding formula allows for greater expansion of these programs.

THE RESULTS OF GEORGIA'S PRWORA INITIATIVE

Georgia has successfully achieved and in some instances exceeded the goals and requirements of the TANF program as mandated by the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, including participation rates, maintenance of effort spending, and reduction of teen pregnancy rates. This effort has enabled thousands of Georgia's citizens to achieve an improved way of life through welfare reform. Children of TANF families observe first-hand the benefits of work, as their parents provide for them a higher standard of living than was possible on welfare. These positive role models will, undoubtedly reduce the likelihood of children becoming future adult TANF recipients. Georgia will continue to demonstrate the successes that have been achieved for its families.

**E. The Number of Individuals Who
Received Diversionary Assistance in Order to
Prevent Their Requiring TANF Assistance
And the Categories and Cost of
Such Diversionary Assistance and
Job Acceptance and Retention Statistics**

Note: A diverted individual is defined as one who participates in Application Job Search and whose application for cash assistance is denied because the person either accepts a job or withdraws his or her application. No additional information is gathered on these individuals since they are no longer included in the TANF database.
