REPORTING REQUIREMENTS

THE DEPARTMENT OF HUMAN RESOURCES IS SUPPLYING REPORTS AND STATISTICS ON WELFARE REFORM TO FULFILL THE REQUIREMENTS OF SENATE BILL 104.

FROM SENATE BILL 104:

“[The department shall] publish an annual report and such interim reports as may be necessary. The annual report and such interim reports shall be provided to the Governor and members of the General Assembly and contain the following:

- A. The total TANF caseload count;
- B. Quarterly and annual TANF reports, in full, prepared for submission to the federal government;
- C. The percentage of the TANF caseload and the number of individuals given a hardship exemption from the lifetime limit on cash assistance and a categorization for such exemption;
- D. The number of individuals who received transportation assistance and the cost of such assistance;
- E. The number of individuals who received diversionary assistance in order to prevent their requiring TANF assistance and the categories of such diversionary assistance, and job acceptance and retention statistics;
- F. The number of individuals denied assistance due to a serious violent felony conviction;
- G. The number of mothers under 19 years of age who received assistance and their percentage of the total TANF caseload;
- H. Number of children receiving subsidized child care and the total and average per recipient cost per child;
- I. Data on teen pregnancy prevention;
- J. The number of families sanctioned;
- K. The number of legal immigrants receiving TANF benefits by category of immigration status;
- L. The number of families no longer eligible because of time limits;
- M. Follow-up information on job retention and earnings; and
- N. An evaluation of the effect of Code Section 49-4-186 on the number of births to TANF recipient families.

The information required under this paragraph shall be provided on a county-by-county basis where feasible.

WELFARE REFORM IN GEORGIA: 1998 - 2008

Senate Bill 104

The enabling legislation for the Temporary Assistance for Needy Families (TANF) program in Georgia was Senate Bill 104, now known as Act 389. The major provisions of the bill included:

- Most recipients are limited to 48 months of TANF assistance.
- All adult TANF recipients and all eligible parents are mandated to participate in approved work activities.
- All adult TANF recipients were required to sign a personal responsibility plan that emphasized the fact that they must take personal responsibility to better their lives.

Some of the required actions included:

- ensuring that minor children attend school
 - attending school conferences
 - attending family planning counseling
 - participating in substance abuse treatment, if needed
 - having children immunized
 - obtaining prenatal care.
- Teen parents are required to continue to live with a parent or responsible relative, and must remain in school to obtain their GED or high school diploma.
 - Family cap measures were strengthened, so that TANF cash assistance was not increased for recipients who had another child after receiving TANF for ten months. Families who did not meet work or personal responsibility requirements could be sanctioned, with a reduction or permanent termination of benefits.

The Personal Responsibility and Work Opportunity Reconciliation Act

In August 1996, the Personal Responsibility and Work Opportunity Reconciliation Act (PRWORA) was enacted. PRWORA eliminated the Aid to Families with Dependent Children (AFDC) cash entitlement program, and replaced it with the Temporary Assistance for Needy Families (TANF) block grant. PRWORA effectively ended welfare entitlement, replacing the AFDC program with the time-limited benefits of Temporary Assistance for Needy Families (TANF). The purposes of this legislation were to:

- Provide assistance to needy families so that children could be cared for in their own homes;

- Reduce welfare dependency by promoting job preparation, work and marriage;
- Prevent teen pregnancies; and
- Encourage the formation and maintenance of two-parent families.

PRWORA established mandatory work and job training participation rates for recipients and enacted time limits for the receipt of TANF benefits. Moreover, PRWORA afforded states greater flexibility in the design and implementation of the TANF program and provided each state a block grant to fund its TANF program. State Maintenance of Effort (MOE) spending levels were mandated so that states would maintain levels of spending consistent with previous spending for AFDC.

In the fall of 1996, Georgia submitted a state plan for administering the TANF program. Following a 45-day federal review period and a series of public hearings, the plan was accepted by the U.S. Department of Health and Human Services (HHS) and Georgia was approved to receive its share of the TANF block grant. The first TANF checks were issued on January 1, 1997.

In past years, the most important aspect of a caseworker's job was issuing welfare benefits. With the 1996 introduction of WorkFirst! the emphasis shifted to helping recipients find work. During SFY 2005 and 2006, Georgia has focused on training the case managers (formerly called case workers) to assist TANF recipients in maintaining employment as well as seeking career advancement. Customers are not just expected to get a job but to keep the job, seek advancement and earn enough money to leave the welfare rolls. As a result, our TANF caseloads are greatly declined.

New Developments

In October 2004, Georgia initiated a new service delivery strategy for TANF called TANF = WORK NOW. This strategy focuses on 3 elements: (1) Education-TANF Clients are educated at the point of application on all the goals and requirements of the TANF program. (2) Engagement-TANF clients with a work requirement are engaged in work activities within 7 days of the approval of their application. (3) Monitoring-TANF clients are monitored consistently and frequently to ensure adherence to program requirements. This concept yielded a significant decrease in the number of Total TANF Cases, in particular the number of Adult Cases on TANF. In SFY07, the monthly average of adult cases was 4,080.

In April 2006, Georgia took TANF = Work Now a step further by focusing on values and beliefs that under gird our work and assist in strengthening Georgia's families. New policies were implemented and case managers were trained on the principles of case management. The values and beliefs that we espouse are:

- Welfare is not good enough for any family.
- Government cannot and should not take the place of family.

- Children are better off when responsible caretakers are able to provide for their families.
- There is dignity in work, whether with the hand or the head.
- Georgia urges responsible adult behavior and economic self-sufficiency to end dependency on government assistance.
- With proper preparation, support and supervision, we can help our customers create a more secure employment future for themselves.

In October 2006, Georgia recognized the need for additional transitional supports to assist customers with job retention and career advancement, thereby, launching the Work Support Program. Details of this program are contained in the Work Supports Section.

In February 2008, the Final Rule for the Reauthorization of TANF was released by the Administration for Children and Families (ACF)/ the Department of Health and Human Services (DHHS). This rule was based on changes required by the Deficit Reduction Act (DRA) of 2005. According to the DRA final document (page 1), “The DRA reauthorized the TANF program through fiscal year (FY) 2010 with a renewed focus on work, program integrity, and strengthening families through healthy marriage promotion and responsible fatherhood.”

The Deficit Reduction Act retained most of the original welfare reform law. The key changes in the final rule were: (1) defined each of the 12 countable work activities, (2) defined the term “work eligible individual,” (3) clarified that a State may count only actual hours of participation, (4) recalibrated the caseload reduction credit by updating the base year from FY 1995 to FY 2005, (5) required each State to establish and maintain work participation verification procedures through a Work Verification Plan, (6) established a new penalty for failure to comply with work verification procedures, and (7) allows additional pro-family expenditures to count toward a State’s maintenance-of-effort (MOE) requirement.

Georgia has made the necessary changes to be compliant with the new guidelines stated in the final rule. There was no major impact on the way business is conducted in Georgia, or in the requirements for this report.

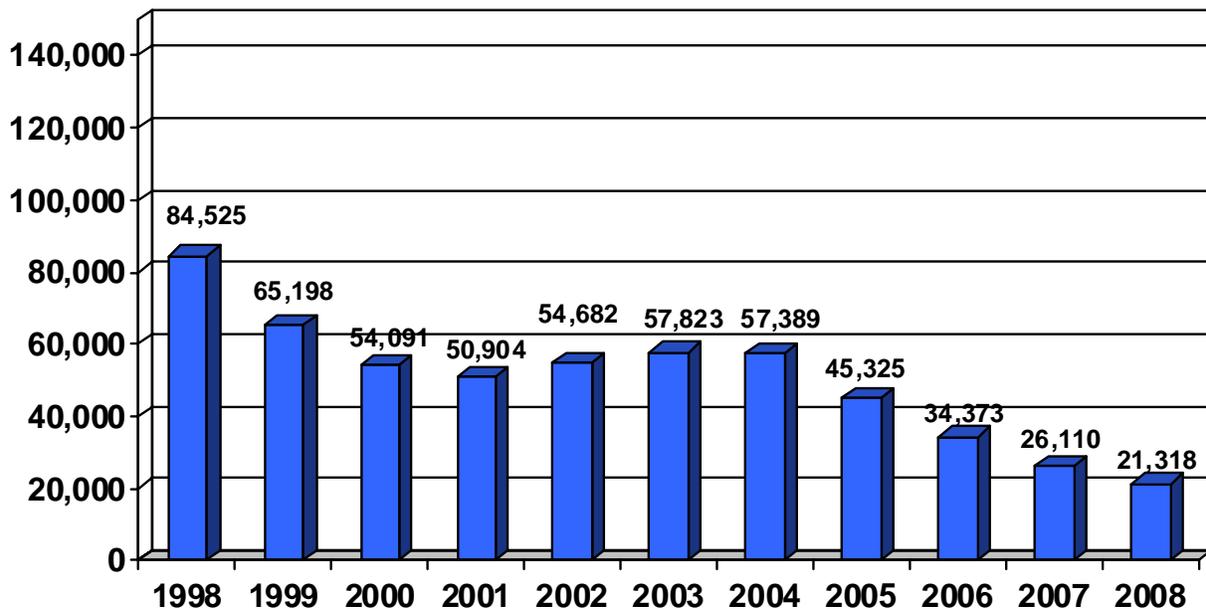

Collaborative Efforts

To achieve Georgia’s commitment to assisting TANF recipients to fulfill the requirements of Act 389 and to attain self-sufficiency, it was critical to collaborate with other public service agencies, and with entities in the education and business world. Partnerships were formed with the Georgia Department of Labor (GDOL) and with the Georgia Department of Technical and Adult Education (GDTAE) to develop a job-ready workforce. Each agency committed to providing specific services to TANF recipients, with DHR providing case management and support services. GDTAE is the primary source for job training, and GDOL focuses on job development and placement. The services provided through these partnerships have contributed greatly to the decline in the number of families receiving TANF since the implementation of welfare reform.

TANF customers utilized the job training, job development and job placement resources from our partners to gain or refresh their skills; thus, becoming more marketable, which enabled them to find better jobs and leave the TANF program.

Currently in FY 2008, due to the significant decrease in the caseload we no longer have a contractual agreement with GDТАЕ. However, we still operate in partnership with them to serve the citizens of Georgia.

TANF CASELOADS *SFY 1998 thru SFY 2008*

In SFY 1998 Georgia had 84,525 cases on its TANF rolls. We are happy to report that the current total number of cases on TANF in Georgia for SFY 2008 is just over 21,000. We have reduced our rolls by 75% in ten years. As of June 2008, Georgia had 21,318 total TANF cases.

Work Supports

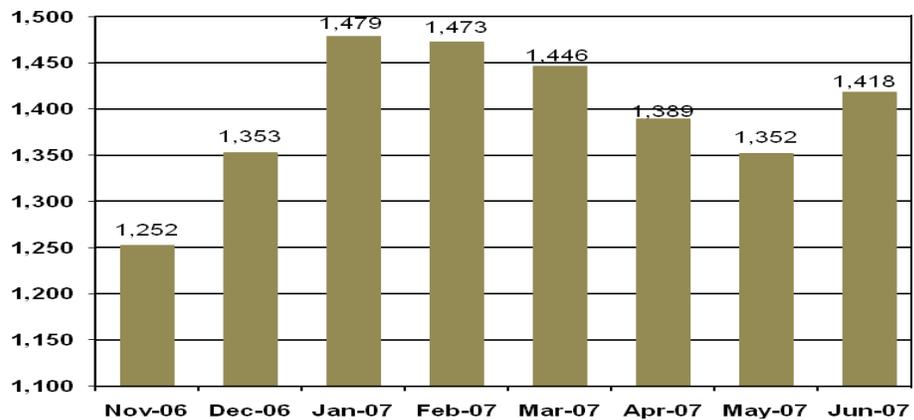

In addition to partnerships with other agencies, the availability of work supports was critical to the success of TANF self-sufficiency efforts. In order to secure and maintain employment, many families required assistance with transportation, childcare, and medical expenses, as well as assistance in obtaining child support.

In SFY 2006, Georgia implemented new policies, which provided TANF recipients with two new work support services. They were Employment Intervention Services (EIS) and Transitional Support Services (TSS). EIS is non-recurrent, short-term assistance

that is equivalent to four times the maximum grant amount for the AU size. The availability of the EIS must be discussed with all clients during application process. EIS is available only once in a client's lifetime. TSS assistance provides transportation, childcare and various incidentals (occupational licensing fees, special work boots, clothing, tools, etc.) to allow TANF applicants and recipients to seek and/or maintain employment. Applicants who are employed or become employed but remain eligible for TANF cash assistance have an option to choose between EIS or TSS. They cannot receive both. TSS is available only once per 24-calendar-month period.

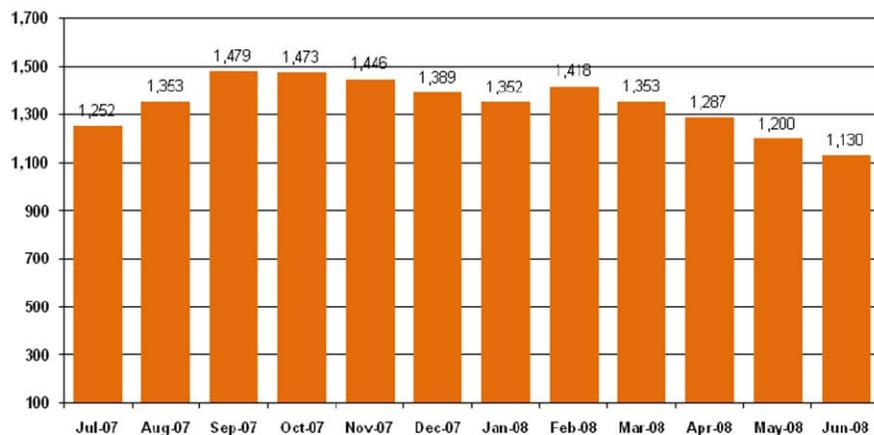

During SFY 2007, we implemented the Work Support Program. The Work Support Program provides Work Support Payments (WSP), Transitional Support Services (TSS) and Job Coaching to working families. In order to address job retention, the work support payments will assist the former TANF recipient with additional work related expenses or incidentals, while the TSS provides transportation, childcare and various incidentals needed to maintain employment. The services of the work support program are available to the former TANF families for a period of twelve (12) months and twice in their lifetime receipt of TANF.

TANF Work Support Payments

TANF Work Support Payments
Number of Clients
 SFY 2008

Source: COSTAR (WAS 528, Entitlement Code 69. Data is based on payments processed as of the end of SFY 2008.

WSP

The Work Support Payments are paid through a two tiered process:

- During the first six months, the former TANF family can receive a cash supplement of \$200.00 per month. The family will also be eligible to receive transitional support services for this initial six-month period.
- During the second six months, the former TANF family can receive a cash supplement of \$100.00 per month. The family will no longer be eligible to receive transitional support services during this time.

NOTE: The family may remain eligible to receive childcare through the Childcare and Parents Services (CAPS) program if the AU continues to meet CAPS eligibility criteria.

The family that remains eligible for a reduced TANF check must be given an option to choose between TANF and the WSP.

EIS

Employment Intervention Service (EIS) is available to an applicant who has a short term critical need and s/he:

- has a full time job but is temporarily on unpaid leave due to his/her temporary illness or the illness of a family member and is scheduled to return to work within 4 months, and the family unit meets the gross income ceiling (GIC) test,
- is employed at the time of application and is potentially eligible for less than the maximum amount of cash assistance for the family size, and so declines TANF cash assistance to preserve months of TANF eligibility,
- obtains employment during Applicant Job Search that reduces his/her potential benefits and s/he decides to withdraw his/her application to stop the TANF clock.

Employment status and amount of earnings must be verified and documented in SUCCESS and the source of verification must be filed in the case record.

TSS

TSS is available for a period of six months beginning with the first month of ineligibility for cash benefits or the month in which the TANF case closes due to employment.

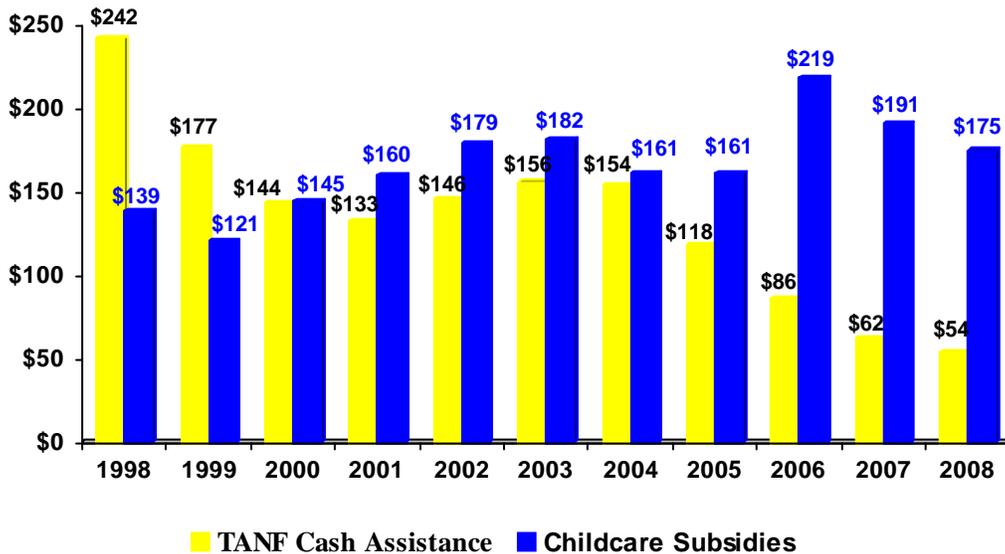

TSS is available to:

- an applicant whose employment obtained during applicant job search causes the family to become ineligible for cash assistance,
- an applicant who voluntarily withdraws his/her TANF application and chooses TSS because employment obtained during applicant job search has significantly reduced his/her potential TANF grant amount and the client wishes to preserve months of

potential TANF eligibility,

- an applicant employed at the time of application, is potentially eligible for less than the maximum amount of cash assistance for the family size, declines TANF cash assistance to preserve months of TANF eligibility and chooses TSS to meet his/her immediate need to maintain the job,
- a recipient whose employment causes the family to become ineligible for cash assistance,
- a recipient whose on-going TANF case is closed due to loss of earned income disregards, or
- a recipient who voluntarily closes the TANF case because employment has significantly reduced the TANF grant amount and the client wishes to stop the TANF clock and preserve months of potential TANF eligibility.

Comparison of Cash Assistance and Childcare Expenditures *in Millions of Dollars* SFY 1998 thru SFY 2008

Transportation

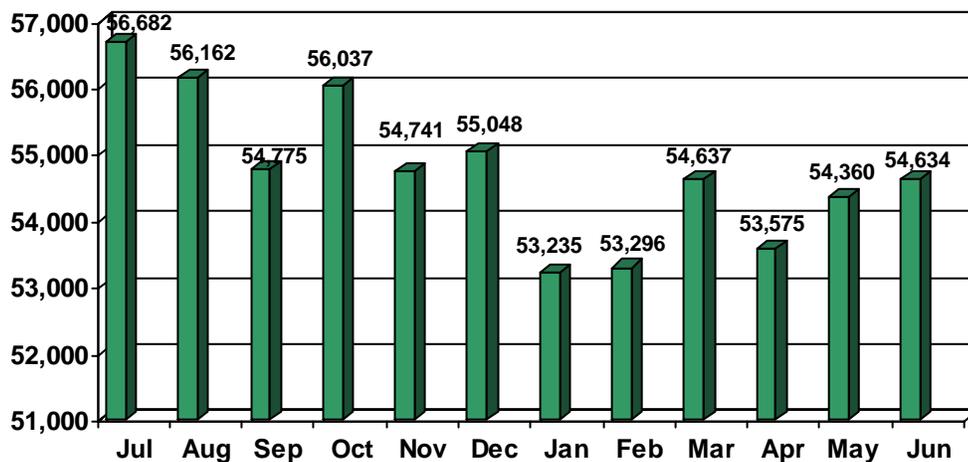

Transportation expenditures greatly increased with the implementation of TANF and subsequently decreased as the number of TANF cases declined. GDHR/DFCS offers two transportation work supports options: direct payment to applicants and clients and transportation services through GDHR's Consolidated Transportation System. Although funds were available for transportation expenses, transportation services were not readily available, particularly in rural areas. In SFY 2000, GDHR/DFCS collaborated with the Georgia Office of Facilities and Support Services to expand the Consolidated Transportation System. TANF funds invested in this initiative have increased from \$345,000 in SFY 00 to \$8,667,616 in SFY 2008. TANF funds paid directly to applicants and clients totaled \$2,326,786 in SFY 2008.

Childcare

Affordable, quality childcare was also essential to the success of individuals going to work. The number of payments for children in subsidized childcare increased from approximately 58,099 per month in SFY 1997 to average 100,828 per month in SFY 2007. In addition, expenditures in the program increased from \$115,999,169 in SFY 97 to \$175,323,415 in SFY 2008. Childcare continues to be one of the largest programs managed by caseworkers at the county level.

Number of Children in Childcare

(Based on payments processed)
SFY 2008

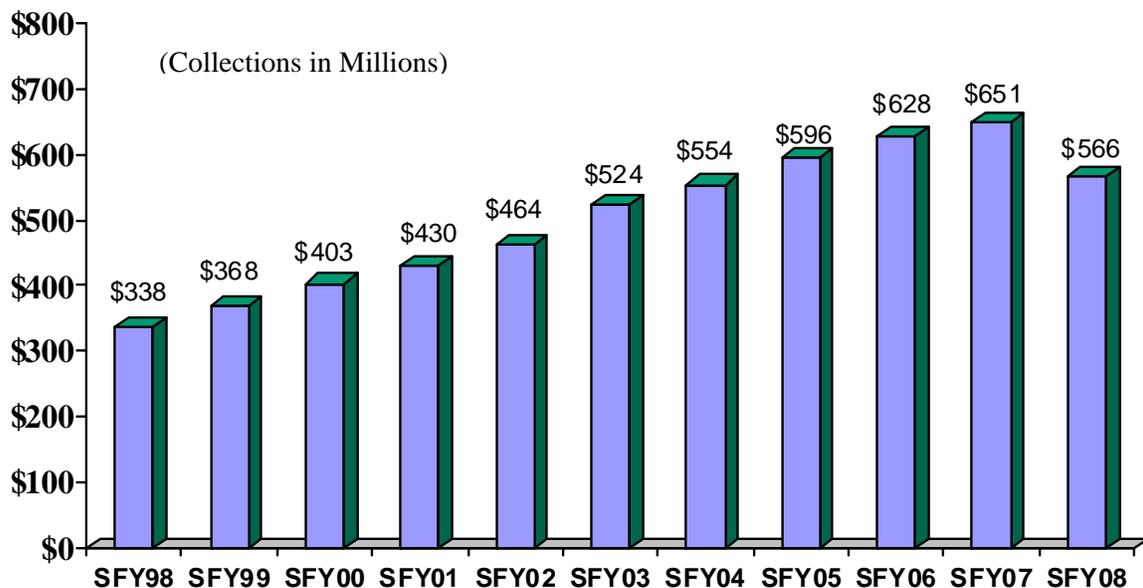

Medicaid

Many TANF recipients beginning first-time employment were either unable to afford the medical insurance made available to them by their employers or found that few employers offered the option of medical insurance. The combination of Low Income Medicaid (LIM), Transitional Medical Assistance (TMA), and Right from the Start Medicaid (RSM) or PeachCare for Kids (PCK) provided and continues to provide this necessary coverage. The 12-month continuation of Medicaid in the form of Transitional Medical Assistance (TMA) provides necessary medical coverage for families who become ineligible for LIM as a result of new or increased earned income. Once TMA ends, the children of most families are eligible for additional coverage through RSM or PCK. Currently 619,436 Georgia families receive Medicaid through ABD, LIM, TMA, and RSM. This was in June of 2008.

Child Support

Insufficient child support prevented many single parents from attaining economic self-sufficiency. Increased collections by the Child Support Enforcement (CSE) program are helping families receive more of the child support owed to them.

Increasing Success in Collecting Child Support

Additionally, Georgia's Fatherhood Initiative has been expanded throughout the state. The Department of Technical and Adult Education (DTAE) has taken the lead in this project. Job training is provided to assist fathers in securing employment that will enable them to pay child support and provide for their children. This initiative teaches young men how to be more responsible parents.

Other Work Supports

The future of welfare reform in Georgia will include a continuing focus on moving families to economic independence through stable employment. Most recipients who are currently remaining on TANF fall into three main categories. The first and largest is comprised of children who receive TANF in “child-only” cases in which a non-parent relative is caring for the children and is not included in the TANF grant. These families are not subject to time limits or work requirements. The second category consists of recipients who are enrolled in an activity and participating at the required federally mandated level for adults receiving TANF for themselves and their children. The third and most challenging category consists of recipients who are dealing with multiple barriers to self-sufficiency. Some of these barriers include substance abuse, illiteracy, disabilities, and domestic violence issues. The following initiatives continue to assist these recipients in attaining self-sufficiency:

- The GDHR Division of Mental Health, Developmental Disabilities and Addictive Diseases (GMHDDAD) provide substance abuse counseling and treatment through outpatient and residential facilities. Treatment for clients who have been diagnosed with mental impairment and mental retardation is also provided.
- The GDOL Vocational Rehabilitation (VR) Program provides disability assessments for recipients who allege a disability that impedes their ability to work. VR also places recipients in appropriate VR programs based on assessment outcomes and makes recommendations that assist DFCS in planning services to help recipients overcome barriers to employment.
- GDTAE provides expanded adult literacy services.
- Domestic violence issues have been emphasized through various measures. Contracts have been signed with local shelters to provide assessments for individuals claiming domestic violence as a barrier to becoming self-sufficient. Waivers from certain program requirements may be granted based on assessment outcomes. Training is provided for DFCS staff. Brochures and posters are distributed throughout local areas to increase awareness of available services.

Lifetime Limits

In Georgia, the receipt of TANF is limited to 48 months in a lifetime for an assistance unit. Beginning in January 1997, each month in which an assistance unit receives TANF, counts toward the 48-month lifetime limit. The federal lifetime limit is 60 months. An assistance unit that is subject to the lifetime limit may have the limit waived if it is determined that the assistance unit meets certain hardship criteria.

Hardship Waivers

Some families will require additional time to prepare for work and some may never be fully self-sufficient. For these families, Georgia has established a hardship waiver policy that is approved on a case-by-case basis. The waiver of the lifetime limit allows for temporary extensions of TANF to families experiencing additional barriers.

The hardship waiver policy was revised in April 2006. There are now three hardship criteria for case managers to use to evaluate each family's situation.

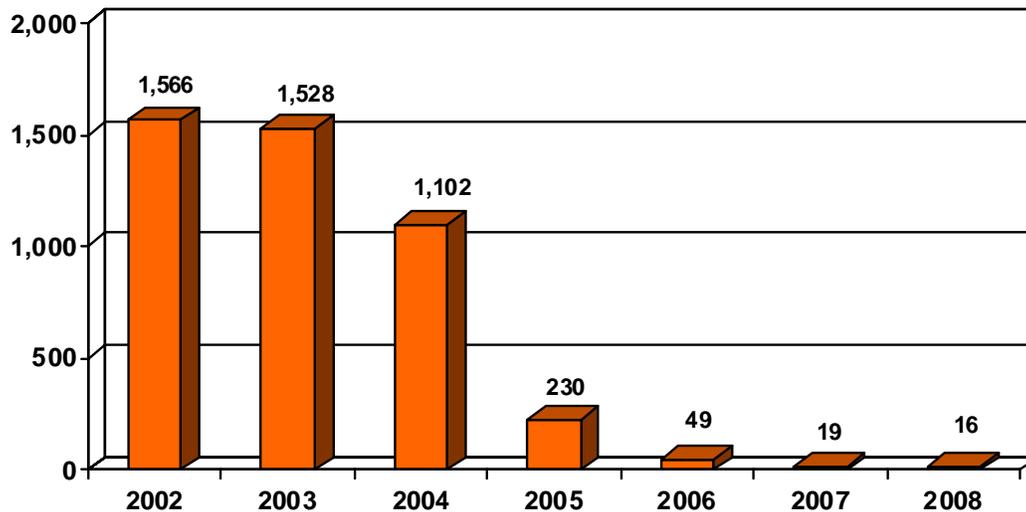

1. A family member is a victim of domestic violence or has been threatened.
2. The applicant/recipient has an active child protective services case and the circumstances necessitating the CPS case create a barrier to the applicant's/recipient's attainment of self-sufficiency.
3. The disability of the grantee relative, other eligible adult or a household member is a barrier to employment for the grantee relative or other eligible adults.

Other forms of work supports, including Food Stamps, Medicaid, shelter and utility assistance, are available to families that do not meet any of the hardship criteria.

Georgia's TANF caseload totaled 50,996 cases in December 2000 when the first 1,446 families reached the 48-month time limit. Of those families, 1,094 met a hardship criterion and were eligible for extended TANF benefits through hardship waivers. Since December 2000, the number of families reaching the 48-month time limit has consistently decreased.

In December 2001 yet another milestone in the TANF program was reached when 311 Georgia TANF recipients reached the federally imposed 60-month TANF lifetime limit. Of these 311 recipients, 280 continued to be eligible under a hardship extension. As with the 48-month time limit, the number of families reaching the 60-month federal lifetime limit has decreased. In June 2004 there were 1,102 families receiving a hardship extension, but in June 2005 there were only 230 families receiving extensions. In June of 2006, 49 families received an extension and currently in June 2008, Georgia has only 16 families who are receiving a hardship extension.

TANF Hardship Extensions June of the Year from 2002 to 2008

Teen Pregnancy Prevention

In addition to the work requirements contained in PRWORA, states were required to address the problem of rising teen pregnancy. Teen pregnancy in our state has cost taxpayers billions of dollars. Therefore, the Georgia Division of Public Health (GDPH) in collaboration with DFCS developed a Teen Pregnancy Prevention Initiative and instituted teen pregnancy prevention measures. In 2007, the Division of Family and Children Services provided approximately \$8.7 million in TANF funds to the Division of Public Health, through an MOU, to support the Adolescent Health and Youth Development Program (AHYD) program activities. Preventing teen pregnancy is a cost-effective strategy for creating a competitive workforce, fighting child poverty, and reducing overall state and local government expenditures in Georgia.

As part of the Georgia Division of Public Health's (GDPH) long range commitment to improve the health and development of our youth and young adults, ages 10 to 19, the Adolescent Health and Youth Development Program (AHYD) implements programs and services which are **based on state and national research** on proven and promising approaches for reinforcing positive attitudes, healthy behaviors and activities, and reducing risk-increasing behaviors among youth, such as violence, substance abuse, poor school performance, and sexual activity.

Adolescent Health and Youth Development Programs and services focus on *early prevention* and **broaden the scope of traditional programmatic approaches for teen pregnancy prevention**. By focusing on the 'assets' of individual youth and their families and developing activities in collaboration with communities, schools and other public and private organizations; AHYD has provided the following network of community-based support to help adolescents succeed as they move into adulthood:

1. Intensified efforts to educate both teens and adults in communities with high rates of teen pregnancy or sexually transmitted diseases;
2. Educated parents on how to communicate more effectively with their children about responsible reproductive health decisions;
3. Offered and improved community access to comprehensive adolescent reproductive health care, including STD screening, and education that provides information about the risks of teen sexual activity;
4. Broadened the scope of existing teen pregnancy prevention and youth development programs to include young men. These programs build on the strengths of youth and focus on life options rather than specifically on sexual issues or pregnancy prevention; and
5. Educated pregnant and parenting teens about existing family support opportunities.¹ This included:
 - improving community access to programs that: educate teens about the importance of nutrition, prenatal care, and the dangers of smoking and drinking during pregnancy.
 - increasing teen access to health care through collaboration among health-care, social service, and public health organizations.
 - conducting community-specific needs assessment and develop outreach programs to address and improve issues of teen access to health insurance programs, prenatal care, and health-care services.
 - educating expectant and teen parents on health and safety issues, STDs, and childhood diseases.

AHYD preventive health programs and services are located throughout Georgia and at 32 program sites located in 18 counties. The ages of the youth served were: 10-14 (18,663), 15- 17 (14,588), and 18-19 (8,831). In FY 2007, AHYD programs provided **individualized services to 42,079 youth**, including:

- **64,263** Comprehensive health services
- **18,091** Individual health screenings
- **1,136** Well Child check-ups and
- **8,957** Health and community referrals

AHYD also supports primary prevention activities targeting sexual violence. In FFY 2007, funded agencies conducted 4,565 sessions on the awareness of sexual violence. A total of 127,337 persons received these services – 56,550 males and 70,787 females

¹ Educational Programs and Support Services for Pregnant and Parenting Youth are important in Georgia. A teen girl who has a baby is more likely to have a repeat birth before age 20. The repeat teen birth rate has remained ABOVE 20% in Georgia, since 1994. Nearly 1 in 4 Hispanic mothers had a repeat teen birth.

Declines in teen birth rate in Georgia have proven that we can make a difference not only to improve the well being of our children, families and communities but also to reduce the burden on taxpayers.

More information about *Births to Teenagers in Georgia* is available at <http://dhr.georgia.gov> (click About Us, Fact sheet index). For more information about Georgia's Adolescent Health and Youth Development programs, call 404-657-8377 or visit <http://health.state.ga.us/programs/adolescent/>. To access teen pregnancy rates by health district or county for years 1994 through 2006, visit the OASIS (Online Analytical Statistical Information System) web query tool at <http://oasis.state.ga.us/oasis/qryMCH.aspx>.

DHR Afterschool Services

In November 2005 the Department launched the Afterschool Services Program (Formerly DHR Youth Initiative) in order to expand out-of-school services available to school age youth. They recognized that youth development practices delivered in after school and summer program settings can play a critical role in motivating youth to achieve success not only in schools, but also in their personal lives. These out of school services also contribute to our efforts in reducing teen pregnancy.

In FFY '06 over \$13 million dollars in TANF and state funding were used to expand summer and afterschool programs for children ages 6-19. Funds were distributed to community-based organizations and public schools. The awards ranged from \$28,000 to \$800,000 to over \$6 million for the GA Alliance of Boys and Girls Clubs, Inc. statewide. Through a pilot program with the Department's Division of Mental Health, 5,300 young people with severe emotional difficulty and behavior disorders took part in summer recreation programs. \$3.5 million was provided for these programs. In total, the DHR Youth Initiative funds have impacted over 200 program sites and over 19,000 youth have benefited from these programs across the state.

In FFY '07 the budget in TANF and state funding remained at the same level but the distribution changed. Funds were distributed to community-based organizations and public schools. The awards ranged from \$18,000 to \$647,900 to over \$6 million for the GA Alliance of Boys and Girls Clubs, Inc. statewide. Through a pilot program with the Department's Division of Mental Health, 2,800 young people with severe emotional difficulty and behavior disorders (or those at risk for developing such behaviors) took part in summer recreation programs. \$1.8 million was provided for these programs. In total, the DHR Afterschool Services funding has impacted over 230 program sites and over 19,000 youth have benefitted from these programs across the state.

In FFY '08 the Afterschool Services program was funded solely with TANF funds. In addition the maintenance of effort requirement was increased from \$20M to \$28M.

Funds were distributed to community- and school-based organizations. The awards ranged from \$25,000 to \$850,000 to \$8 million for the Georgia Alliance of Boys and Girls Clubs, Inc. to continue providing services state wide. \$1M in funding was allocated to continue the pilot program with the Division of Mental Health and service youth with severe emotional or co-occurring disorders. This year, the DHR Youth Initiative funds have impacted over 300 program sites and over 23,000 youth have benefited from these programs across the state.

As TANF cases in Georgia continue to decline the Department of Human Resources is able to devote additional resources to support working families, while leveraging other funds using at least a \$1 to \$1 match to DHR funding. This funding formula allows for greater expansion of these programs.

THE RESULTS OF GEORGIA'S PRWORA INITIATIVE

Georgia has successfully achieved and in some instances exceeded the goals and requirements of the TANF program as mandated by the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, including participation rates, maintenance of effort spending, and reduction of teen pregnancy rates. This effort has enabled thousands of Georgia's citizens to achieve an improved way of life through welfare reform. Children of TANF families observe first-hand the benefits of work, as their parents provide for them a higher standard of living than was possible on welfare. These positive role models will, undoubtedly reduce the likelihood of children becoming future adult TANF recipients. Georgia will continue to demonstrate the successes that have been achieved for its families.

**E. The Number of Individuals Who
Received Diversionary Assistance in Order to
Prevent Their Requiring TANF Assistance
And the Categories and Cost of
Such Diversionary Assistance and
Job Acceptance and Retention Statistics**

Note: A diverted individual is defined as one who participates in Application Job Search and whose application for cash assistance is denied because the person either accepts a job or withdraws his or her application. No additional information is gathered on these individuals since they are no longer included in the TANF database.
