**Georgia Division of Family and Children Services –
Office of Prevention and Family Support
Second Step Program**

1. OVERVIEW

1a. Introduction

The Georgia Division of Family and Children Services' (DFCS) mission is to strengthen Georgia by providing individuals and families access to services that promote self-sufficiency, independence and protect Georgia's vulnerable children.

1b. Office of Prevention and Family Support

The Office of Prevention and Family Support (OPFS) of the Georgia Division of Family and Children Services (DFCS), works in partnership with community-based organizations committed to reducing the incidence of child abuse and neglect by implementing evidence-based prevention and early intervention techniques to ensure positive outcomes for children and families.

State and federal funding provides families throughout Georgia, services such as parent support programs, parent training, screening and identification tools, training opportunities, high-quality home visitation and primary and secondary child maltreatment prevention that helps local communities promote the overall health and well-being of Georgia's children, youth and families. OPFS is committed to supporting quality child abuse and neglect prevention and child and family resource programs throughout the state.

This Statement of Need (SoN) is for the school based and after-school based implementation of the Second Step (SS) Social Emotional Learning (SEL) curriculum and the Child Protection Unit (CPU), for the 2017-2018 school year.

OPFS staff is available to assist you if you have questions in completing this application. Please see the **technical assistance contact list on page 16** of this SoN. In addition, please contact Laura Griggs at Laura.Griggs@dhs.ga.gov to register for the Statement of Need Conference Call scheduled for January 19, 2017 at 2:00pm.

1c. Second Step and CPU Curriculum

The Second Step SEL curriculum, developed by the Committee for Children (CfC), is a universal, classroom-based curriculum designed to promote children's social and academic success by decreasing problem behaviors, increasing students' school success, and promoting social-emotional competence and self-regulation. The curriculum aims to reduce impulsive and aggressive behaviors and increase protective

factors and social-emotional competence. Organized by grade level, the program teaches children empathy, problem-solving skills, risk assessment, decision-making, and goal-setting skills. The Second Step SEL curriculum is classified as a universal intervention, meaning that it is appropriate for whole classrooms of children and not just those at risk. Second Step is an excellent resource that complements the work of **Positive Behavioral Interventions and Supports (PBIS)** and school climate in Georgia and is NOT a replacement or substitute for PBIS. To learn more about Second Step's alignment with PBIS, please visit: http://www.cfchildren.org/Portals/1/SS_K5/K-5_DOC/PBIS_RTI_Alignment_SS.pdf?ver=2015-10-07-034722-087

Second Step lessons are organized into skill-building units. Lessons are sequential, developmentally appropriate, and provide opportunities for modeling, practice, and skills reinforcement. The curriculum includes discussion, teacher modeling, coaching skills, and role-plays. Stories are used to demonstrate important peer-relations skills and to teach affective (emotional), cognitive, and behavioral social skills. Lessons can be incorporated into health, science, math, social studies, and language arts.

The Second Step Early Learning (Pre-K) curriculum is designed to promote young children's readiness skills for school and life. It teaches core social-emotional and self-regulation skills. **The Elementary (K-5th) Second Step** curriculum is based on best practice models of pedagogy and instruction, which incorporate lesson skill practice, using skills every day, following-through activities for reinforcement of skills, and home link activities for parents and caregivers. **The Second Step Middle School (6th-8th)** curriculum is based on research in three key areas: early adolescent development, risk and protective factors, and instructional practices to support the program's goals. All curricula contain distinct, developmentally appropriate levels for each grade.

The Child Protection Unit (CPU) is designed to address the multiple influences of parent, family, child, community, and environmental characteristics that can contribute to child abuse and neglect. The curriculum includes four elements of school-based child protection: policies/procedures, staff training, student lessons, and family education. The unit focuses on relatable, real-life scenarios and teaches students the "Three R's:" Recognize, Respond, and Report.

The Bullying Prevention Unit (BPU) is designed to prevent bullying by changing multiple levels of the school ecology through intervention components that affect schools and classrooms, peer norms and behavior, and individual attitudes and skills. The unit builds upon the social-emotional skills taught through the Second Step SEL curriculum to decrease physical bullying, malicious gossip, and major fighting. The "Three R's:" Recognize, Report and Refuse, are used to teach students, staff, and teachers to better prevent bullying in the school environment.

The Principal Toolkit provides concrete support for successful principal leadership within an SEL program. Principals play a pivotal role in the quality implementation of Second Step, and this resource provides easy, everyday ways to help Second Step make a difference in schools. Tools include scripted meeting agendas to introduce staff to the program, ready-to-use morning announcements and communications to staff and

families and an office-referral conversation guide to engage students in how to use Second Step skills to change behavior.

The Second Step add-on of the CPU and the BPU builds upon the foundation set by teaching the Second Step SEL curriculum. Schools implementing the Second Step SEL curriculum in grades Pre-K through 5th **MUST** also implement the CPU in the corresponding grades, through this funding opportunity.

The BPU implementation is optional, through this funding opportunity, for any school K through 5th, however, if you chose to implement the BPU, it must be taught in addition to the Second Step SEL as it builds upon the basic curriculum. BPU and CPU are not currently available in grades 6th-8th through CfC.

The Principal Toolkit is also optional and is only available for grades K-5th.

Additional information regarding the Second Step Program:

1. This Statement of Need (SoN) is for implementation in Pre-K through 8th grade of the Second Step SEL curriculum as well as implementation of the CPU for grades Pre-K through 5th grade.
2. This SoN is also for **OPTIONAL** implementation of the BPU for grades K through 5th, as long as the Second Step SEL curriculum and CPU are being implemented. The Principal Toolkit is also available as an option for grades K through 5th.
3. Programs are encouraged to use teachers as the presenters of Second Step and CPU lessons rather than counselors or social workers in a “drop-in” fashion. Securing the “buy-in” of teachers is essential for successful implementation in the school setting.
4. The curriculum must be used with all children, not just those identified as at-risk or those with behavior problems.
5. If implementing in an **after-school program**, applicants must clearly demonstrate the ability to break out by grade level in order to implement the curriculum with fidelity.
6. 100% of the cost of Second Step and CPU materials will be paid for through this funding opportunity. Programs must purchase the appropriate grade level kits or the appropriate grade level bundle kits from Committee for Children (CfC). Please complete the attached budget workbook from CfC.
7. Applicants are required to contact Jennifer Balogh (jbalogh@cfchildren.org; 206-438-6522) with CfC, to complete the budget worksheet and receive a price quote **before applying**.
8. Programs must participate in Second Step and CPU training. The training is offered online through an activation key provided with the Second Step kits. All staff should be trained by September 8, 2017.
9. The Second Step Implementation Assurances attachment must be completed by both the Superintendent of the School System and the Principal of each school implementing Second Step. For non-profits the form must be completed by the executive officer and program contact of the organization.
10. Programs are expected to begin implementation by September 11, 2017.

11. Second Step and CPU lessons must be taught in sequential order, with one lesson taught per week to maintain model fidelity. Middle School lessons can be split into 2 parts and taught twice per week.
12. This funding is only for reimbursement of the curriculum purchased and not for staff salary or other expenses.

For more information about Second Step, please visit the CfC website:
<http://www.cfchildren.org/second-step.aspx>.
