

Welfare Reform in Georgia 2015

Senate Bill 104

DIVISION OF FAMILY AND CHILDREN SERVICES WELFARE REFORM IN GEORGIA ANNUAL REPORT 2015

TABLE OF CONTENTS

SENATE BILL 104 REPORTING REQUIREMENTS	ii
WELFARE REFORM IN GEORGIA, 2015	iii
SECTION A The Total TANF Caseload Count	2
SECTION B Quarterly and Annual TANF Reports ACF-196 Temporary Assistance to Needy Families-Financial Report	3
SECTION C Percentage and Number of TANF Caseload Given Hardship Exemption from Lifetime Limit	5
SECTION D TANF Recipient Transportation Assistance	10
SECTION E Diversionary Assistance to Prevent TANF Receipt	14
SECTION F Number of Individuals Denied Assistance Due to a Serious Violent Felony Conviction	23
SECTION G Number of Mothers Under 19 Who Received TANF Assistance	24
SECTION H TANF Subsidized Child Care	28
SECTION I Data on Teen Pregnancy Prevention	40
SECTION J Number of TANF Sanctions	54
SECTION K Number of Legal Immigrants Receiving TANF Benefits by Category of Immigration Status	55
SECTION L Number of Families No Longer Eligible Because of Time Limits	59
SECTION M * Follow-up Information on Job Retention and Earnings: * <i>Information is not available</i>	
SECTION N Evaluation of the Effect of Code Section 49-4-186 On the Number of Births to TANF Recipients Families	60

REPORTING REQUIREMENTS

THE DEPARTMENT OF HUMAN RESOURCES IS SUPPLYING REPORTS AND STATISTICS ON WELFARE REFORM TO FULFILL THE REQUIREMENTS OF SENATE BILL 104.

FROM SENATE BILL 104:

“[The department shall] publish an annual report and such interim reports as may be necessary. The annual report and such interim reports shall be provided to the Governor and members of the General Assembly and contain the following:

- A. The total TANF caseload count;
- B. Quarterly and annual TANF reports, in full, prepared for submission to the federal government;
- C. The percentage of the TANF caseload and the number of individuals given a hardship exemption from the lifetime limit on cash assistance and a categorization for such exemption;
- D. The number of individuals who received transportation assistance and the cost of such assistance;
- E. The number of individuals who received diversionary assistance in order to prevent their requiring TANF assistance and the categories of such diversionary assistance, and job acceptance and retention statistics;
- F. The number of individuals denied assistance due to a serious violent felony conviction;
- G. The number of mothers under 19 years of age who received assistance and their percentage of the total TANF caseload;
- H. Number of children receiving subsidized child care and the total and average per recipient cost per child;
- I. Data on teen pregnancy prevention;
- J. The number of families sanctioned;
- K. The number of legal immigrants receiving TANF benefits by category of immigration status;
- L. The number of families no longer eligible because of time limits;
- M. Follow-up information on job retention and earnings; and
- N. An evaluation of the effect of Code Section 49-4-186 on the number of births to TANF recipient families.

The information required under this paragraph shall be provided on a county-by-county basis where feasible.

WELFARE REFORM IN GEORGIA: 2005 – 2015

Senate Bill 104

The enabling legislation for the Temporary Assistance for Needy Families (TANF) program in Georgia is Senate Bill 104, now known as Act 389. The major provisions are:

- Most recipients are limited to 48 months of TANF assistance.
- All adult TANF recipients and all eligible parents are mandated to participate in approved work activities.
- All adult TANF recipients are required to sign a personal responsibility plan that emphasized the fact that they must take personal responsibility to better their lives.

Some of the required actions include:

- ensuring that minor children attend school
 - attending school conferences
 - attending family planning counseling
 - participating in substance abuse treatment, if needed
 - having children immunized, and
 - obtain prenatal care, if needed
- Teen parents are required to continue to live with a parent or responsible relative, and must remain in school to obtain their GED or high school diploma.
 - Family cap measures were strengthened, so that TANF cash assistance was not increased for recipients who had another child after receiving TANF for ten months.
 - Families who did not meet work or personal responsibility requirements could be sanctioned, with a reduction or termination of benefits for three (3) months or 12 months, depending on the number of infractions.

The Personal Responsibility and Work Opportunity Reconciliation Act

In August 1996, the Personal Responsibility and Work Opportunity Reconciliation Act (PRWORA) were enacted. PRWORA eliminated the Aid to Families with Dependent Children (AFDC) cash entitlement program and replaced it with the Temporary Assistance for Needy Families (TANF) block grant. PRWORA effectively ended welfare entitlement, replacing the AFDC program with the time-limited benefits of Temporary Assistance for Needy Families (TANF). The purpose of this legislation is to:

- Provide assistance to needy families so that children could be cared for in their own homes;
- Reduce welfare dependency by promoting job preparation, work and marriage;

- Prevent teen pregnancies; and
- Encourage the formation and maintenance of two-parent families.

PRWORA established mandatory work and job training participation rates for recipients and enacted time limits for the receipt of TANF benefits. Moreover, PRWORA afforded states greater flexibility in the design and implementation of the TANF program and provided each state a block grant to fund its program. State Maintenance of Effort (MOE) spending levels were mandated so that states would maintain levels of spending consistent with previous spending for AFDC.

In the fall of 1996, Georgia submitted a state plan for administering the TANF program. Following a 45-day federal review period and a series of public hearings, the plan was accepted by the U.S. Department of Health and Human Services (HHS) and Georgia was approved to receive its share of the TANF block grant. The first TANF checks were issued on January 1, 1997.

In past years, the most important aspect of the case manager's job was issuing welfare benefits. With the 1996 introduction of Work First, the emphasis shifted to helping case managers (formerly called case workers) to assist TANF recipients in maintaining employment, as well as seeking career advancement. Customers are not just expected to get a job, but to keep the job and seek advancement. They are expected to earn enough money to leave the welfare rolls. As a result, our TANF caseloads greatly declined.

New Developments

In October 2004, Georgia initiated a new service delivery strategy for TANF called TANF = WORK NOW. This strategy focused on 3 elements: (1) Education - TANF participants were educated at the point of application on all the goals and requirements of the TANF program. (2) Engagement - TANF participants with a work requirement were engaged in work activities within 7 days of the approval of their application. (3) Monitoring - TANF participants were monitored consistently and frequently to ensure adherence to program requirements. This concept yielded a significant decrease in the number of Total TANF Cases, in particular, the number of Adult Cases on TANF.

In April 2006, Georgia took TANF = Work Now a step further by focusing on values and beliefs that would assist in strengthening Georgia's families. New policies were implemented and case managers were trained on the principles of case management. The values and beliefs that we espouse are:

- Welfare is not good enough for any family.
- Government cannot and should not take the place of family.
- Children are better off when responsible caretakers are able to provide for their families.
- There is dignity in work, whether with the hand or the head.

- Georgia urges responsible adult behavior and economic self-sufficiency to end dependency on government assistance.
- With proper preparation, support and supervision, we can help our customers create a more secure employment future for themselves.

In October 2006, Georgia recognized the need for additional transitional supports to assist participants with job retention and career advancement, thereby, launching the Work Support Program.

In February 2008, the Final Rule for the Reauthorization of TANF was released by the Administration for Children and Families (ACF)/ the Department of Health and Human Services (DHHS). This rule was based on changes required by the Deficit Reduction Act (DRA) of 2005. According to the DRA final document (45 CFR, Parts 261, 262, 263, and 265. pg. 6772), “The DRA reauthorized the TANF program through fiscal year (FFY) 2010 with a renewed focus on work, program integrity, and strengthening families through healthy marriage promotion and responsible fatherhood.”

The Deficit Reduction Act retained most of the original welfare reform law. The key changes in the final rule were: (1) defined each of the 12 countable work activities, (2) defined the term “work eligible individual,” (3) clarified that a State may count only actual hours of participation, (4) recalibrated the caseload reduction credit by updating the base year from FFY 1995 to FFY 2005, (5) required each State to establish and maintain work participation verification procedures through a Work Verification Plan, (6) established a new penalty for failure to comply with work verification procedures, and (7) allows additional pro-family expenditures to count toward a State’s maintenance-of-effort (MOE) requirement.

Also in FFY 2010, the agency rolled out a new business process, Georgia Re-engineering Our Work (GROW). The G.R.O.W. process established three functions that case managers focus on (1) interviewing applicants, (2) processing applications, and (3) finalizing applications. An applicant in North Georgia applying for benefits would be interviewed by a case manager in Middle Georgia. The application could then be transmitted to a case manager in West Georgia for processing, and transmitted to another location for finalization or approval. After approval, the case was transferred back to the county where the applicant resided. The GROW process symbolized the concept of doing more with less.

In FFY 2011, Georgia DHS added a new process, Document Imaging System (DIS). The document imaging system gave public assistance customers the option to scan in documents from a home computer scanner, a scanning station in a public community center, such as the Community Action Agencies/Authorities (CAA’s), certain child support offices, or local DFCS offices. Customers who were employed and unable to report to a local DFCS office could renew their benefits online and scan the required supporting documents to an image repository where the case manager or other staff could access the documents.

In FFY 2012, The Division of Family and Children Services (DFCS) revisited the G.R.O.W. process to reevaluate its effectiveness. During the evaluation, it became evident that the work could not change, but the way the work was done could. Business Operations Planning (B.O.P.) was added. B.O.P. is: (1) the standardization of G.R.O.W. within each Region. All Regions would use the same procedures to complete a case from start to finish. (2) Self-service was the standardized lobby resource, (3) Document Imaging (DIS), (4) Telecommunications – Local Office call center model, and (5) OFI Data Tool – Standardized data management. In making sure we were all on the same page with the B.O.P. process, OFI Teams were formed. The OFI Teams consisted of: (1) Customer Support, (2) Business Support, and (3) Eligibility Specialist. Our customer support staff supported all walk-in work and was the faces of DFCS. The business support staff scanned mail to DIS, answered general inquiries, registered and initiated cases. The eligibility specialists keyed cases, interviewed applicants, finalized cases and handled case maintenance. With these measures in place, we were striving to provide our customers with a timely and efficient outcome.

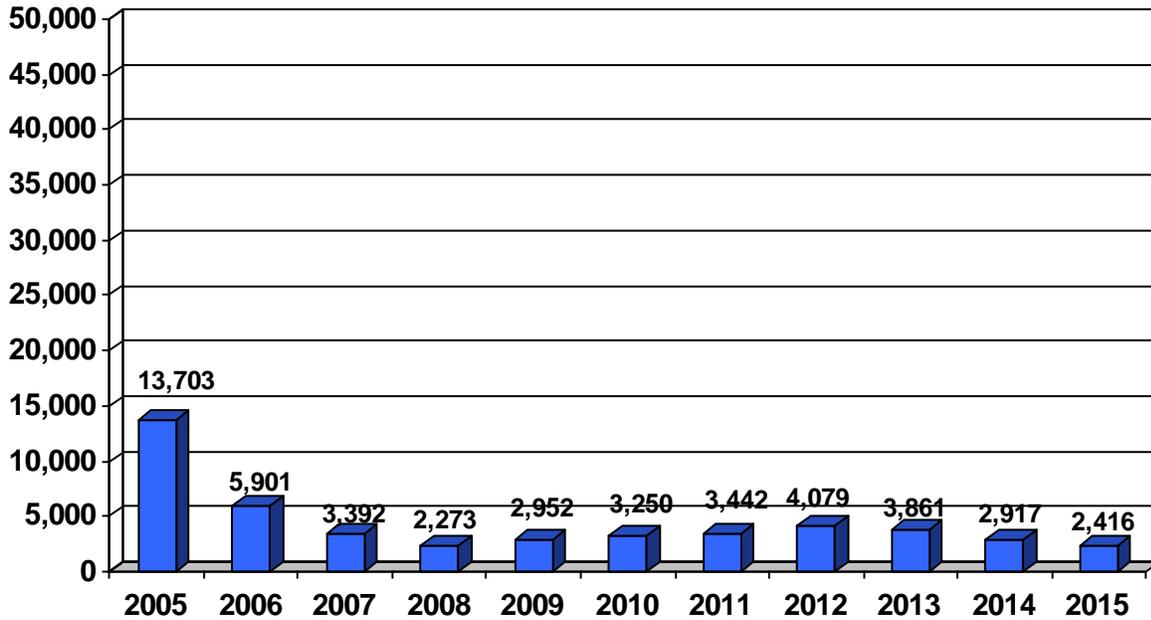

In an effort to improve the overall service of the public assistance programs, Georgia decided to expand their process one more time. Georgia One stood out. The goal of Georgia One was to provide convenient access, service accountability, and improve the customer experience for those in need of our services. Through a combination of technology (DIS and COMPASS) acquired in FY 2013 and self-service options, DFCS is now able to provide Food Stamps, TANF, Childcare and Medicaid recipients the opportunity to track and manage their benefits throughout the entire process. This change helps us serve our customers more efficiently and effectively. Even though we have added these exciting changes in our process, paper applications are still available. If an applicant wants a paper application, they would request one at their local DFCS office.

Georgia realizes there are several ways to serve its people, but finding the best way will take plenty of observations and research. The State reached out to all the programs under its belt, to see what the current processes were. After that, they sat down to find out what worked and did not work for the community and its workers. In March 2015, the State's efforts to find a more effective way to help provide eligibility services and improve its customer service came to reality. First, the State decided to upgrade its eligibility system. The new eligibility system is known as Georgia Gateway. Georgia Gateway will allow potential participants to gather general information about service programs without speaking to anyone. This eligibility system also allows people to apply for cash assistance on-line and inform them of other programs they may be eligible for. Along with the new eligibility system, a new business process came along, "One Caseworker, One Family" model. The "One Caseworker, One Family" model allows the case manager to maintain a case throughout its process and not be transferred to another worker.

Georgia has made the necessary changes to be compliant with the new guidelines stated in the final rule. The most significant changes were the new internal control guidelines which required major system changes. There was no other major impact on the way Georgia conducted its business.

TANF Adult CASELOADS

SFY 2005 thru SFY 2015

TANF Adult Caseloads

As we continue our mission to help TANF recipients attain self-sufficiency, our adult TANF caseload is decreasing. The TANF Adult Caseload has dropped from 11,287 in 2005 to 2,416 in 2015. The decrease is 11,287 cases within a 10 year period.

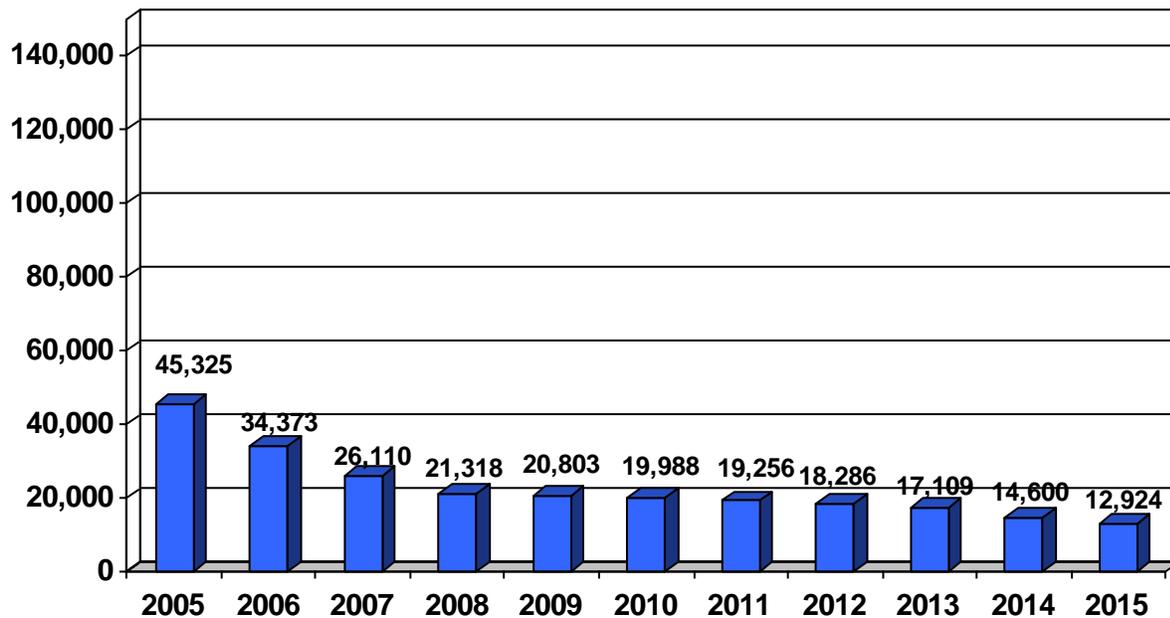

Collaborative Efforts

To assist Georgia's TANF recipients fulfill the requirements of Act 389 and attain self-sufficiency, it was necessary that we collaborated with other public service agencies and entities. To start, we formed partnerships with Georgia Department of Labor (GDOL) and the Technical College System of Georgia (TCSG) to develop a job-ready workforce. Each agency committed to providing specific services to TANF recipients, while Georgia Department of Human Services (DHS) provided case management and support services. TCSG was the primary source for job training and GDOL focused on job development and placement.

The services provided through these partnerships have contributed greatly to the families receiving TANF. The recipients utilized the job training, job development and job placement resources from our partners to gain or refresh their skills; thus, becoming more marketable. The services also helped some find better jobs and leave the TANF program.

TANF CASELOADS

SFY 2005 thru SFY 2015

In SFY 2005, Georgia had 45,325 cases on its TANF roll. The current total number of cases on TANF in Georgia for SFY 2015 is 12,924. Georgia has reduced its rolls by approximately 29% in ten years.

Transportation

Transportation expenditures greatly increased with the implementation of TANF and subsequently decreased as the number of TANF cases declined. GDHS/DFCS offers two transportation work support options: direct payment to applicants and recipients and transportation services through GDHS' Consolidated Transportation System. Although funds were available for transportation expenses, transportation services were not readily available, particularly in rural areas. In SFY 2000, GDHS/DFCS collaborated with the Georgia Office of Facilities and Support Services to expand the Consolidated Transportation System. TANF funds invested in this initiative have increased from \$345,000 in SFY 2000 to \$2,700,708 in SFY 2015. In SFY 2015, TANF funds paid directly to applicants and recipients totaled \$1,464,700.

Work Support Payments

In addition to partnerships with other agencies, the availability of work support payments is critical to the success of TANF self-sufficiency efforts. In order to secure and maintain employment, many families require assistance with transportation, childcare, and medical expenses, as well as assistance in obtaining child support.

WSP and Transitional Support Services (TSS) will be provided for applicants and participants who find employment and become ineligible for on-going TANF or decline TANF to stop the

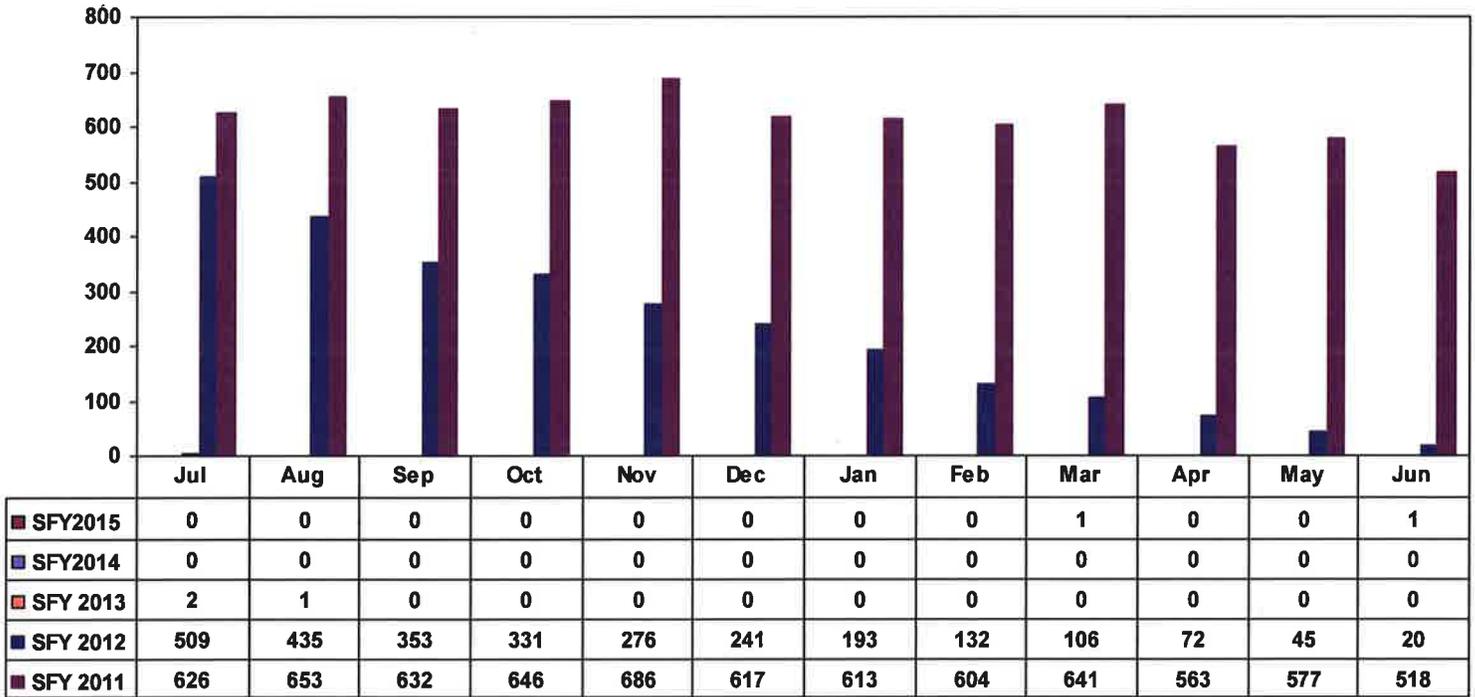

TANF clock. Both services will be provided to applicants and participants for twelve (12) months.

Employment Intervention Services (EIS)

EIS is available to TANF applicants who has full time employment, but is temporarily on unpaid leave due to a temporary illness and is scheduled to return to work within four (4) months, and the AU meets the gross income ceiling (GIC) test.

TANF Subsidies

Entitlement Code 98: Work Support Payments \$200

Number of Clients

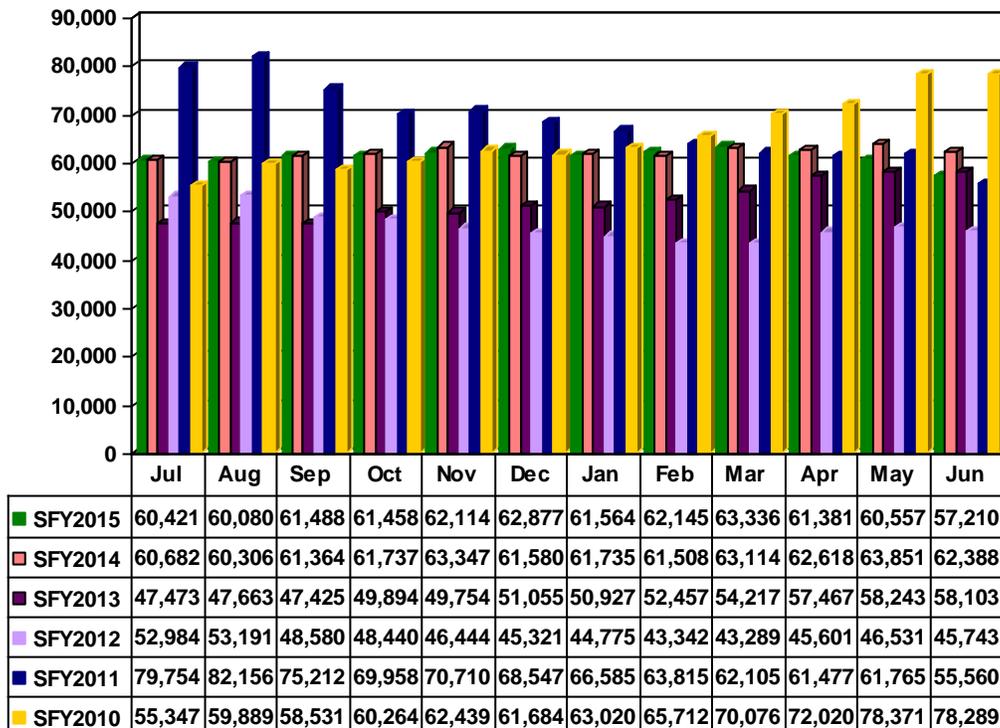

State Fiscal Years 2011 - 2015

Comparison of Cash Assistance and Childcare Expenditures in Millions of Dollars SFY 2005 thru SFY 2015

Number of Children in Childcare (Based on payments processed) State Fiscal Year 2010 – 2015

Childcare

Affordable, quality childcare is essential to the success of individuals obtaining and maintaining employment. The average number of children in childcare from month to month decreased from 78,289 children in SFY 2010 to 57,210 in SFY 2015. In addition, expenditures in the program decreased from \$212M in SFY 2010 to \$206M in SFY 2015. Childcare continues to be one of the largest programs managed by case managers at the county level.

Medicaid

Many TANF recipients beginning first-time employment were either unable to afford the medical insurance made available to them by their employers or found that few employers offered the option of medical insurance. The combination of Low Income Medicaid (LIM), Transitional Medical Assistance (TMA), and Right from the Start Medicaid (RSM) or PeachCare for Kids (PCK) provided and continues to provide this necessary coverage. The 12-month continuation of Medicaid in the form of Transitional Medical Assistance (TMA) provides necessary medical coverage for families who become ineligible for LIM as a result of new or increased earned income. Once TMA ends, the children of most families are eligible for additional coverage through RSM or PCK. As of June of 2015, there were 878,838 Georgia families that received Medicaid through ABD, LIM, TMA, and RSM.

Increasing Success in Collecting Child Support

(Collections in Millions)

Child Support

Insufficient child support prevents many single parents from attaining economic self-sufficiency. Increased collections by the Division of Child Support Services (DCSS) program are helping families receive more of the child support owed to them. There was a drop in the amount of child support collected from SFY 2007 (\$651M) to SFY 2008 (\$566M). The collections rebounded in FY 2009 (\$595M), in 2010 (\$600M), in 2011 (\$708M) and then slightly decreased in 2012 to (\$692M) and again in 2013 (\$682M). Child Support collections rebounded in 2014 to (\$703M).

Additionally, Georgia's Fatherhood Initiative has been expanded throughout the state. The Technical College System of Georgia (TCSG) has taken the lead in this project. Job training is provided to assist fathers in securing employment that will enable them to pay child support and provide for their children. This initiative teaches adults and young adults how to be a responsible parent.

Collaborative Work Supports

The future of welfare reform in Georgia includes a continuing focus on moving families to economic independence, through stable employment. Most recipients who remain on TANF fall into three main categories. The first and largest is comprised of children who receive TANF in "child-only" cases, which a non-parent relative is caring for the children and is not included in the TANF grant. These families are not subject to time limits or work requirements. The second category consists of recipients who are enrolled in an activity and participating at the required federally, mandated level for adults receiving TANF for themselves and their children. The third and most challenging category consists of recipients who are dealing with multiple barriers to self-sufficiency. Some of these barriers include substance abuse, illiteracy, disabilities, and domestic violence issues. The following initiatives continue to assist these recipients in attaining self-sufficiency:

- The Georgia Department of Behavioral Health & Developmental Disabilities (DBHDD) and Addictive Diseases provide substance abuse counseling and treatment through outpatient and residential facilities. Treatment for clients who have been diagnosed with mental impairment and mental retardation is also provided.
- The GDOL Vocational Rehabilitation (VR) Program provides disability assessments for recipients who allege a disability that impedes their ability to work. VR also places recipients in appropriate VR programs based on assessment outcomes and makes recommendations that assist DFCS in planning services to help recipients overcome barriers to employment.
- The TCSG provides expanded adult literacy services.
- Domestic violence issues have been emphasized through various measures. Contracts have been signed with local shelters to provide assessments for individuals claiming domestic violence as a barrier to becoming self-sufficient. Waivers from certain program requirements may be granted based on assessment outcomes. Training is provided for DFCS staff. Brochures and posters are distributed throughout local areas to increase awareness of available services.

Lifetime Limits

In Georgia, the receipt of TANF is limited to 48 months in a lifetime for an assistance unit. Beginning in January 1997, each month in which an assistance unit receives TANF, counts toward the 48-month lifetime limit. The federal lifetime limit is 60 months. An assistance unit that is subject to the lifetime limit may have the limit waived if it is determined that the assistance unit meets certain hardship criteria. TANF received by a recipient from another State is subject to be counted in the lifetime time limits.

Hardship Waivers

Some families will require additional time to prepare for work and some may never be fully self-sufficient. For these families, Georgia has established a hardship waiver policy that is approved on a case-by-case basis. The waiver of the lifetime limit allows for temporary extensions of TANF to families experiencing additional barriers.

The hardship waiver policy was revised in April 2006. There are three hardship criteria for case managers to use to evaluate each family's situation.

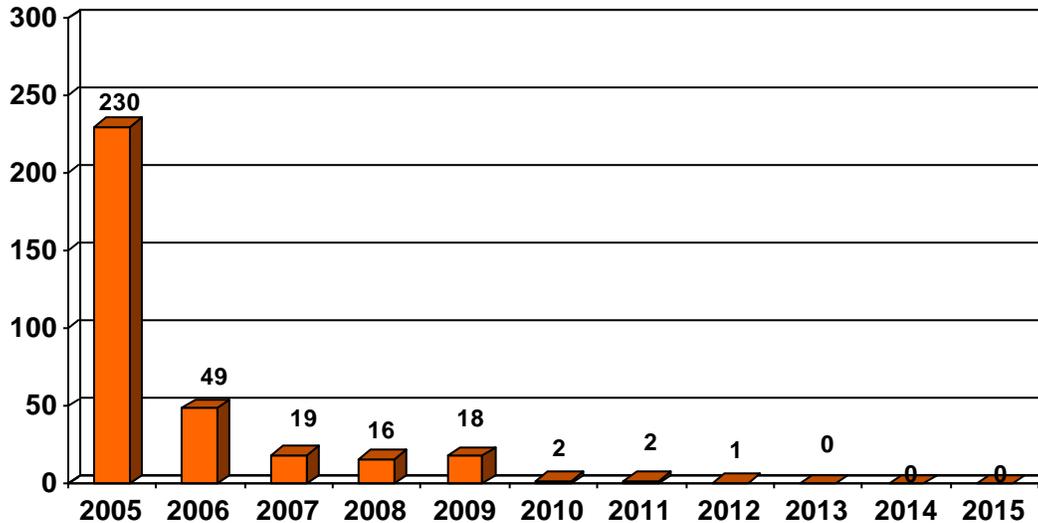

1. The AU meets the domestic violence criteria.
2. The AU has an active child protective services case and the circumstances necessitating the CPS case create a barrier to the AU's attainment of self-sufficiency.
3. The disability of the grantee relative, other eligible adult or a household member is a barrier to employment for the grantee relative or other eligible adults.

Other forms of support, Food Stamps, Medicaid, shelter and utility assistance, are available to families that do not meet any of the hardship criteria.

Georgia's TANF caseload totaled 50,996 cases in December 2000 when the first 1,446 families reached the 48-month time limit. Of those families, 1,094 met a hardship criterion and were eligible for extended TANF benefits through hardship waivers. Since December 2000, the number of families reaching the 48-month time limit has consistently decreased.

In December 2005, another milestone in the TANF program was reached. There were 311 Georgia TANF recipients that reached the federally imposed 60-month TANF lifetime limit. Of the 311 recipients, 280 continued to be eligible under a hardship extension. As with the 48-month time limit, the number of families reaching the 60-month federal lifetime limit has decreased. In June 2002, there were 1,566 families receiving a hardship extension, but in June 2005 there were only 230 families receiving extensions. In June of 2006, 49 families received an extension, and in June 2009, Georgia had only 18 families who received a hardship extension. In June 2010, there were only two households that received a hardship extension. In 2012, there was one household receiving a hardship extension. In 2013, there were no households receiving a hardship extension. As of 2014, there are still no households receiving a hardship extension.

**TANF Hardship Extensions
June of the Year from 2005 to 2015**

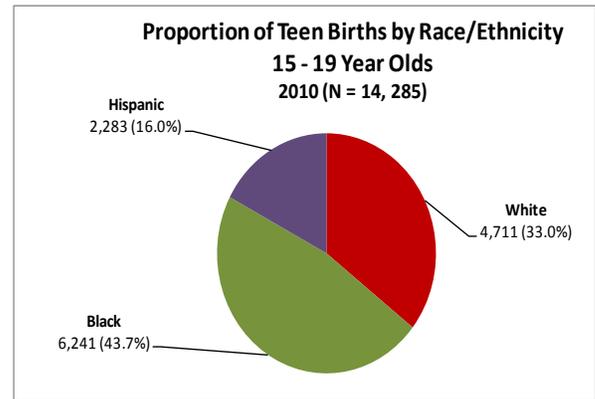

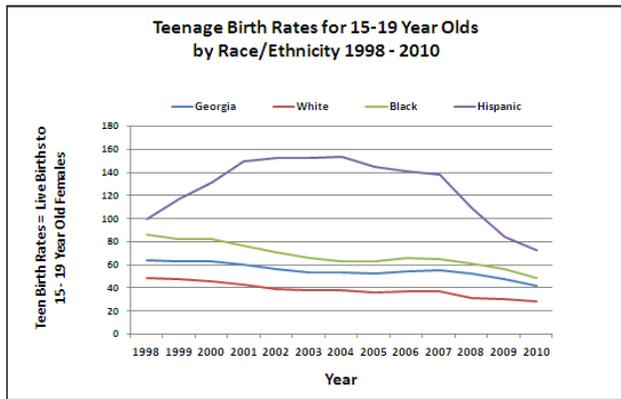

Teen Pregnancy Prevention

The scope of the problem: During 1998 to 2009, the birth rate among girls in Georgia 15-19 years old declined 25.7%, from 63.9 births per 1,000 females in 1998 to 47.5 in 2009. This decline continued in 2010 at 13.3% from 2008 and 35.5% from 1998. During that same period 1998 to 2010, the teen birth rate for non-Hispanic White adolescents declined 41.9%. The decline in the teen birth rate among non-Hispanic African-Americans was 42.9% and 27.6% among Hispanic adolescents.

Today, more teen mothers are unmarried than in past generations. In 2010, 87.7% of teens that gave birth were not married, compared to 77.2% in 1998. Single-parent families, especially young families, are at a greater risk of emotional and financial instability. Teen mothers are also at greater risk of receiving late or no prenatal care, having a premature birth (<37 weeks) or low birth weight baby (<2,500 grams), and experiencing an infant death (<1 year).

- In 2006, 6.0% (1,007) of 15-19 year old mothers had experienced late or no prenatal care.
- In 2010, 14.1% (2,016) of births to 15-19 year olds were premature, and 11.9% (1,703) were low birth weight.

Repeat births are common in teens. In 2010, 19.8% of all births among teens 15-19 years old were repeat births. Births to 10-14 year olds made up 1.3% of all births to 10-19 year olds in 2010. While the teen birth numbers have been declining, pregnancy in this age group remains a serious public health concern. In 2010, 365 girls ages 10-14 became pregnant and 184 gave birth. It is imperative that Georgia reduce the incidence of teenage pregnancy among adolescents in order to reduce the Georgia teen birth rates.

Progress: Teen birth rates have decreased both in Georgia and nationally. Georgia has made significant progress in reducing teen births and the associated personal and economic costs; but Georgia must continue to reduce the teen birth rate even further by reducing sexual activity and other risky behaviors among unmarried teens. Unintended pregnancies, particularly those occurring very early in a woman's reproductive years, often have adverse health, social, and economic consequences for the mother and her child. Teen pregnancy and out-of-wedlock parenting is linked to poverty and welfare dependency. Teenage mothers are more likely to be unmarried, drop out of school, and rely on Temporary Assistance to Needy Families (TANF).

What is the Georgia Department of Public Health (DPH) Doing?

Preventing teen pregnancy is a priority for the Department of Public Health. In partnership with the Georgia Department of Human Services, the DPH addresses teen pregnancy through two programs using a comprehensive approach, the Georgia Adolescent Health and Youth Development Program and the Georgia Women’s Health Family Planning Program.

Georgia Adolescent Health and Youth Development (AHYD) Program:

The goal of the AHYD program is to prevent teenage pregnancy by helping adolescents to grow up healthy, educated, employable, and connected to their families and communities.

The program was established as a result of a teenage pregnancy prevention initiative funded by the Georgia General Assembly in July 1998. The Adolescent Health and Youth Development Program, is housed in the Health Promotion and Disease Prevention Section (HPDPS), within the Department of Public Health (DPH). The AHYD program aims to prevent welfare dependency and improve economic opportunity and responsible parenting.

Currently, funding for the program is administered through a Memorandum of Understanding (MOU) between the Department of Public Health (DPH) and the Department of Human Resources (DHS). Funds are provided to county health departments and local public health districts to support the planning, development, implementation, and evaluation of successful programs that address the broad range of social and economic factors that affect teen behavior, including substance abuse, violence, tobacco use, obesity, and teen sexual activity.

Specifically, the AHYD program provides funding to 13 District AHYD Programs and a Youth Development Coordinator (YDC) in each funded health district. The state office provides ongoing program monitoring as well as capacity building to district and program staff.

District AHYD Programs are operated through county health departments statewide and are located in counties reporting high rates of high school dropouts, HIV/STIs, and/or teen pregnancy.

Youth Development Coordinators (YDC) coordinates efforts between district and county health departments including AHYD Programs. Youth Development Coordinators form critical partnerships with out-of-school programs and county and community agencies, holding workshops with communities, faith-based institutions, and public health leaders to foster collaboration around key adolescent health and youth development issues.

The state AHYD Consultant provides YDCs with ongoing program and fiscal monitoring, technical assistance, training and resources.

Specific strategies: Research shows that successful teen pregnancy prevention programs address the broad range of social and economic factors that affect teen behavior. No single approach is effective by itself. In Georgia, a comprehensive approach is utilized. This approach consists of several strategies including the following:

Coordinated district adolescent health services: Health districts and county health departments actively partner with local youth organizations/providers to co-sponsor health education and promotion events, and to assure that youth have access to needed services and opportunities within their communities (e.g., legal services; food and housing assistance, dental services; tutoring and academic support; entrepreneurship; mental health counseling; youth development, physical activity, mentoring and related services). AHYD supports these local partnerships and collaborations by providing funding for a district Youth Development Coordinator to foster collaboration and coordination of efforts throughout Georgia. Annual district and teen center programs' work plans demonstrate local collaboration.

Comprehensive preventive health services: The AHYD programs provide comprehensive prevention services, including abstinence education, drug and alcohol prevention education, and adolescent reproductive health services. Services are offered in teen-friendly facilities where teens feel comfortable. Most of the youth who come for services do so with the knowledge of their parents. Teens come with a wide variety of needs. Teens may ask for information, attend abstinence classes, learn to improve their reaction to stress and conflict, get advice on nutrition and physical activity, obtain sports physicals, be tested for a sexually transmitted disease or pregnancy, join a support group, or just need someone to talk to. These programs also provide youth access to screening for a variety of health problems and when identified, provide or link them to needed services including immunizations and physicals. Teens are referred by their parents, other teens, school staff, caseworkers, community members, and outreach workers.

Abstinence education: Abstinence is the only certain way to eliminate the risk of pregnancy and STDs. It is the primary prevention method promoted across AHYD-funded programs. AHYD programs are funded to emphasize sexual abstinence as the best choice for preventing pregnancy and sexually transmitted diseases.

Outreach and community referral: Local adolescent health and youth development programs coordinate with other professionals and agencies to assist adolescents and their families in obtaining needed AHYD services and information. Specially trained staff with first-hand knowledge and experience working with at-risk teens are regularly available.

Parent education and involvement: Information and education programs are available to help parents strengthen their parenting and communication skills, build strong bonds with their teens, and understand the developmental changes specific to adolescence. Some programs have established a Parent Advisory Committee (PAC) to provide parents a meaningful way to participate in planning, decision-making, and opportunities for positive health promotion in the community. PACs, in collaboration with local public health officials, are responsible for determining the programs and activities offered in each local community.

Faith/health community partnerships: The AHYD program has formed a partnership with members of the faith community and held conferences with community, faith, and public health leadership to encourage collaboration and working together for positive youth development and health promotion.

Use of risk reduction strategies: Teen Centers using risk reduction strategies that include contraception must follow the DPH “Standard Protocols for Registered Professional Nurses in Public Health”, including encouraging parental involvement, signed informed consent, and distribution of contraceptive devices only in a clinical setting by a health care professional.

Best practices for prevention programs: All prevention programs funded by DPH must incorporate evidence-based practices for effective teen pregnancy and STD prevention programs. In addition, all programs must have a demonstrated impact on key outcomes related to teen pregnancy and STD prevention.

State Capacity Building Efforts: Several teleconference calls were held throughout fiscal year 2012. During the calls the State Adolescent Health and Youth Development Program provided guidance on 1) completing new work plan templates, 2) preparing budgets, 3) preparing reports using a new reporting template, and 4) SMART objectives.

Asset Based Community Development: A state Asset Based Community Development Workshop was held in Atlanta, Georgia. The meeting brought together youth development coordinators, health promotion coordinators and representatives of community based organizations to receive training on maximizing local community resources.

Shaping Policy for Health: The AHYD Youth Development Coordinators were invited to participate in several “Shaping Policy for Health” workshop series facilitated by the Directors of Health Promotion and Education. The workshops included 1) An Introduction to Competency-

Based Practice, 2) Defining the Problem, 3) Proposing a Solution, and 4) Influencing the Change Process.

Georgia’s Women Health Family Planning Program: The AHYD program works synergistically with the Georgia Women’s Health Family Planning Program, also located in the Department of Public Health, Division of Public Health (Maternal and Child Health Program). It coordinates family planning services through county health departments. These services are essential to the well-being of women, men, adolescents, and the community at large. The Family Planning Program offers opportunities for individuals to plan and space their pregnancies in order to achieve personal goals and self-sufficiency. MCH has developed strategies and implemented services to prevent and reduce repeat adolescent pregnancies, including facilitating referrals to family planning services, increasing community awareness, and promoting life skills and abstinence at the community level. Families, parents, and legal guardians are encouraged to participate in the decision of minors to seek these services. Adolescents are counseled on how to resist coercive attempts to engage in sexual activities. Abstinence, contraceptives safe sex, and pregnancy are discussed with all adolescents. Adolescents are not assumed to be sexually active because they seek family planning services.

In 2012, AHYD-funded programs accomplished the following *program specific* outcomes:

Measure 1:	Initial visits for adolescent youth development services including abstinence education:		
Goal:	6,665	Outcome	36,126
Progress:	This was accomplished by providing youth development opportunities through: community and volunteer service events; blood and food drives; Easter Seals Project; adult to youth mentoring activities; pregnant and parenting teen support groups; local university/college teen mentoring programs; curriculum-based educational sessions; “Firestarter Youth Power”; “Safer Choices”; “Media Madness”, “Making a Difference”; “Teens Against Tobacco Use”; “Postponing Sexual Involvement”; “Smart-Girls” and “Wise-Guys” which provides abstinence-based education with a target populations of girls and boys considered significantly “at-risk” in middle and high school; leadership training activities; Red Cross CPR and First-Aid certification classes; public speaking workshops; summer youth leadership program; life skills and development events; effective communication workshops; weekly health education sessions; and teen pregnancy and finance workshops		

Measure 2:	Number of professionals for in-service training events		
Goal:	78	Outcome	267
Progress:	Teen Center staff attended and provided in-service training events such as Sexual Assault Awareness/Prevention, Teen Pregnancy Prevention, Dropout Prevention, Self-Esteem/Peer Pressure, Life-Skills Training, Title X online, Training, HIV Counseling Training, Youth Empowerment Conference, Internet Safety, Linking Parents and Educators, Drug and Alcohol Awareness, Working with Hispanic Women in Rural Settings, CPR, Using What Works: Adapting Evidence-Based Programs to Fit Your Needs, and Coalition Building. Training was provided to 230 professionals, 197 parents, and 304 youths.		

Measure 3:	Number of public awareness and community education events:		
Goal:	113	Outcome	143
Progress:	Public awareness and adolescent health promotion included the distribution of a bullying prevention brochure developed with the District Public Information Officer, bulletin boards designed by Teen Center youth for Alcohol and Drug Prevention to coincide with school proms, “Got Consent” awareness campaign, distribution of pamphlets and wristbands for “You Make a Difference” campaign; community fairs, articles in school newspaper, radio and newspaper advertisements, HIV testing information via Teen Pregnancy Prevention listserv and Facebook.		

TANF Purpose #3: Prevent and reduce the incidence of Out-of-wedlock pregnancies.

FUNDING: Segregated TANF funds

DHS DFCS Afterschool Care Program

The Division of Family and Children Services (DFCS) Afterschool Care Program is designed to support the Georgia Department of Human Services’ (DHS) broader goal of *promoting self-sufficiency and independence among families and protecting Georgia’s vulnerable children and adults*. Educational attainment, positive youth development and an enhanced well-being are key factors in preventing future welfare dependency among today’s youth, particularly youth of economically disadvantaged families. Through out-of-school time programs such as before, after and summer activities, parents and caregivers can ensure youth have a safe and enriching environment when the traditional school day ends. Youth who participate in these out-of-school time programs are able to engage in programming and receive services that connect them with a caring adult, allow them to engage in daily activities that support their yearly academic transition and subsequent transition into adulthood and youth are able to engage in community learning that increases their overall global connectivity that supports their self-awareness and self-esteem.

The Afterschool Care Program is located within the Georgia Division of Family and Children Services (DFCS) and provides federal funding to non-profit organizations and public agencies who serve youth and families during the out-of-school time. It is designed to support DFCS’ goal of providing resources and services that promote self-sufficiency among children and families. By funding services that are provided during before school, after school, intercession and summer hours, the Afterschool Care Program supports two TANF goals:

- (a) Reduce the dependency of needy parents by promoting job preparation, work and marriage.
- (b) Prevent and reduce unplanned pregnancies among single young adults.

The mission of the Afterschool Care Program is to provide resources to youth-serving organizations within the state of Georgia who serve families within low-to-moderate income communities and the foster care system. The vision of the Afterschool Care Program is to ensure every child and youth has access to high quality youth development programming within their community. Educational attainment, positive youth development and an enhanced well-being are key factors in preventing future welfare dependency among today's youth, particularly youth of economically disadvantaged communities. Through out-of-school time programs, parents and caregivers can ensure their youth have a safe and enriching environment when the traditional school day ends. By providing funding through a Statement of Need (SON) solicitation process, the Afterschool Care Program partners with community-based organizations and public agencies throughout the state of Georgia, who provide services to youth and their families. The goals of the DFCS Afterschool Care Program are to:

- Strengthen youth-serving organizations and institutions by providing funding that increases their capacity to design, implement, and sustain quality youth development programs that provide services to underserved youth;
- Strengthen youth by providing opportunities for them to establish a relationship with a caring adult, participate in project-based and/or apprenticeship-based learning experiences and engage in year-round or summer enrichment experiences that prepare for life beyond the school-age years;
- Strengthen families by informing them of available resources within their communities; and
- Strengthen communities by supporting relationship building, coordinating service delivery, and building the capacity of local institutions and organizations to meet the needs of youth, specifically youth who are in foster care and youth who have special needs.

Positive Youth Development Services

Agencies that are funded through the DFCS Afterschool Care Program provide project-based learning activities and/or youth apprenticeship experiences to youth participants that support school day learning and encourage positive transitions into adulthood. In Federal Fiscal Year 2016, funded agencies will be implementing STEAM (Science, Technology, Engineering, Arts and Math) based learning opportunities. Through project-based learning activities and apprenticeship experiences, youth will have the opportunity to learn about 21st century career and educational pathways that support our evolving workforce.

Project-based learning is a hands-on and creative approach to teaching, which provides academic support to students in a way that is fun and engaging. Projects are interdisciplinary in nature and they build on student interest and provide students with an opportunity to demonstrate what they have learned through the actual completion of the project. The youth apprenticeship experience is a method of engaging youth in work-based skill development training that can assist them in

identifying and pursuing certain professional and career choices. Within organizations who implement apprenticeship experiences for their youth, apprenticeships are taught by professionals with real-world experiences in the apprenticeship field selected by the program. Each of these programs includes opportunities for students to participate in other well-being support opportunities, including, but not limited to, health and well-being programming, and family and community engagement.

Funding Allocation and MOE

Since Federal Fiscal Year (FFY) 2006, the DFCS Afterschool Care Program has partnered with agencies by providing funding for them to serve youth during the out-of-school time. Through this partnership, the Afterschool Care Program has required each partnering agency to provide a match contribution to support the programs and services provided to youth. This match is used to support the Georgia Department of Human Services (DHS) and Georgia Division of Family and Children Services' (DFCS) Maintenance of Effort (MOE).

In FFY 2012, Afterschool Care Program funding supported programs and services that served over 34,800 youth through after school and summer programs collectively (majority of youth are served through the Georgia Alliance of Boys and Girls Clubs). The Afterschool Care Program awarded approximately \$15M in funding and \$37M was committed in matching funds. In FFY 2013, the Afterschool Care Program partnered with 60 community-based organizations and public agencies to provide programs and services to youth. Approximately 26,500 youth were served at a total of 353 program sites that were located within 74 of Georgia's counties. The largest number of youths was served through the Georgia Alliance of Boys and Girls Clubs. Youth were also served through many Young Men Christian Association (YMCA) program sites, local community non-profit organizations and within elementary, middle and high schools. As in FFY 2012, the Afterschool Care Program awarded approximately \$15M in funding to these agencies and approximately \$37M was committed in matching funds.

In FFY 2014, the Afterschool Care Program partnered with 40 agencies to provide positive youth development services during the out-of-school time. During the programming year, though there were a reduced number of partnering agencies than those in 2012 and 2013, the Afterschool Program served over 24,000 youth. As in previous programming years, the Georgia Alliance of Boys and Girls Clubs served the largest number of youth and provided the largest amount in match funding for the Department of Human Services and Georgia Division of Family and Children Services' Maintenance of Effort (MOE). In total, all of the partner agencies were awarded approximately \$15.4M in funding and committed approximately \$38M in matching funds during FFY 2014.

Partnerships and Collaborations

During FFY 2013, the Afterschool Care Program partnered with other state agencies to provide the first Afterschool and Youth Development (ASYD) Conference in Georgia. In FFY 2014, in partnership with the Governor's Office for Children and Families (GOCF), Georgia Department of Education (GADOE), and Georgia Department of Public Health (DPH), the Georgia Division of Family and Children Services provided the second statewide After School and Youth

Development (ASYD) Conference. The conference was held in Augusta, Georgia and over 900 youth development workers, stakeholders and agency representatives attended. During the ASYD Conference, the Georgia Afterschool and Youth Development Quality Standards were launched to continue the effort of improving quality and support to youth development and out-of-school time programs within our communities in Georgia. With the statewide partnership to provide the ASYD Conference and in initiating an effort to improve out-of-school time program quality through state after school quality standards, DHS, DFCS, GaDOE and GOCF have continued their commitment in working to provide programs and services that do not duplicate efforts throughout the state of Georgia but compliment and support the work of each agency while considering how initiatives, events, programs and services can be offered more streamlined and efficiently.

Future Goals and Program Impact

In addition to requiring that all funded programs in FFY 2016 have an emphasis on STEAM, we have also moved forward with the further implementation of the Afterschool and Youth Development (ASYD) Quality Standards statewide. Through a collective partnership with other state agencies, each funded program will have the opportunity to utilize the established ASYD Self-Assessment Tool to obtain baseline data of their program's quality and create a plan of improvement to be implemented over the course of the contract year.

THE RESULTS OF GEORGIA'S PRWORA INITIATIVE

Georgia has successfully achieved and in some instances exceeded the goals and requirements of the TANF program as mandated by the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, including participation rates, maintenance of effort spending, and reducing the teen pregnancy rates. This effort has enabled thousands of Georgia's citizens to achieve an improved way of life through welfare reform. Children of TANF families observe first-hand the benefits of work, as their parents provide for them a higher standard of living than was possible on welfare. These positive role models will, undoubtedly reduce the likelihood of children becoming future adult TANF recipients. Georgia will continue to demonstrate the successes that have been achieved for its families.

**E. The Number of Individuals Who
Received Diversionary Assistance in Order to
Prevent Their Requiring TANF Assistance
And the Categories and Cost of
Such Diversionary Assistance and
Job Acceptance and Retention Statistics**

Note: A diverted individual is defined as one who participates in Application Job Search and whose application for cash assistance is denied because the person either accepts a job or withdraws his or her application. No additional information is gathered on these individuals since they are no longer included in the TANF database.
